RHEUMATOID ARTHRITIS AND OSTEOARTHRITIS

I. Rheumatoid Arthritis

A. Etiology and Pathology

1. Aetiology of chronic rheumatism.
Copeman, W. S. C., Ellman, P., et al.
Proc. R. Soc. M., Lond., 1946-47, 40: 329-46.
2. Case of multiple arthritis in a throughbred.
Jones, V. B.
Vet. J. Lond., 1946, 102: 93.
3. Chronic oral sepsis and its relation to rheumatism.
Peebles, W.
Rheumatism, Lond., 1946, 3: 32, 55.
4. Cows' milk and rheumatism.
Maclachlan, J. T.
Brit. M. J., 1946, 1: 784.
5. Fish and rheumatism.
Hamerton, A. E.
Practitioner, Lond., 1946, 156: 74.
6. Focal infection in relation to rheumatic diseases; a critical appraisal.
Freyberg, R. H.
J. Am. Dent. Ass., 1946, 33: 1101-8.
7. Hyaluronic acid and the rheumatic diseases.
Meyer, K., and Ragan, C.
Mod. Concepts Card. Dis., 1948, 17: No. 2, 1.
8. Importance of venous congestion and capillary stasis in the pathogenesis of arthritis.
Meyer, O.
Med. Rec., N. Y., 1947, 160: 412-6.
9. Infection of the cervix uteri and rheumatism.
Ogg, T.
Rheumatism, Lond., 1946, 3: 28.
10. Lesions in muscle in arthritis.
Gibson, H. J., Kersley, G. D., and Desmarais, M. H. L.
Ann. Rheumat. Dis., Lond., 1945-46, 5: 131-8.
11. Lesions of skeletal muscles in rheumatoid arthritis; nodular polymyositis.
Steiner, G., Freund, H. A., et al.
Am. J. Path., 1946, 22: 103-45, incl. 9 pl.

12. Mechanism of oral focal infection in arthritis.
Meyer, O.
Rheumatism, Lond., 1946-47, 3: 79.
13. Medical disorders of the locomotor system including the rheumatic diseases.
Fletcher, E. T. D.
Edinb., 1947, 214-37.
14. Morbid anatomy and histology of rheumatic lesions.
Kersley, G. D., and Desmarais, M. H. L.
Ann. Rheumat. Dis., Lond., 1948-49, 7: 24.
15. Necrobiotic nodules of rheumatoid arthritis type with lipoid deposition.
Fletcher, E.
Ann. Rheumat. Dis., Lond., 1945-46, 5: 88-95.
16. Necrobiotic nodules of the rheumatoid arthritis type, with remarks on rheumatoid arthritis.
Weber, F. P.
Med. Press, Lond., 1948, 219: 484-6.
17. Nodule formation in rheumatic disease.
Kersley, G. D., Gibson, H. J., and Desmarais, M. H. L.
Ann. Rheumat. Dis., Lond., 1945-46, 5: 141-52.
18. Observations on chronic rheumatism as a possible allergic disease.
Barford, L. J.
Rheumatism, Lond., 1946-47, 3: 108-10.
19. Pathology of rheumatic diseases.
Angevine, D. M.
Radiology, 1947, 49: 1-5.
20. Pathology of rheumatism.
Von Glahn, W. C.
Am. J. Med., 1947, 2: 76-85.
21. Perineuritic and polymyositic granulomatous nodules in rheumatoid arthritis.
Steiner, G.
Am. J. Path., 1946, 22: 646-8.
22. Precipitating and predisposing factors in rheumatoid arthritis.
Finney, J. O., Boland, E. W. and Hench, P. S.
Ann. Rheumat. Dis., Lond., 1947-48, 6: 91-4.
23. Preliminary report on the evaluation of oral sepsis in the arthritides.
Fink, G. J.
Harvard Dent. Alumni Bull., 1947, 7: No. 3, 19-21.

24. Prothrombin time in rheumatoid arthritis.
Granirer, L. W.
N. York State J. M., 1948, 48: 291.
25. Rheumatic disease; etiological aspects.
Thompson, M. H.
Kentucky M. J., 1947, 45: 236-42.
26. Rheumatoid arthritis; introduction to a study of its pathogenesis.
Wallis, A. D.
Am. J. M. Sc., 1946, 212: 713-5.
27. Specific cellular accumulations in nerves and muscles in rheumatoid arthritis.
Freund, H. A.
Proc. Centr. Soc. Clin. Res., 1946, 19: 57.
28. Sympatheticotonus and rheumatism.
Coke, H.
Rheumatism, Lond., 1946, 3: 2-5.

B. Bacteriology

1. Agglutination of haemolytic streptococci (group A) in serum from patients with rheumatoid arthritis.
Kalbak, K.
Ann. Rheumat. Dis., Lond., 1947-48, 6: 230-40.
2. Differential agglutination of normal and sensitized sheep erythrocytes by sera of patients with rheumatoid arthritis.
Rose, H. M., Ragan, C., et al
Proc. Soc. Exp. Biol., N. Y., 1948, 68: 1-6.
3. Formol-gel test on plasma and serum in rheumatic cases; correlation studies and a suggestion that non-rouleaux-forming pathological globulins may be of significance in rheumatism.
Gibson, H. J. and Pitt, R. M.
Ann. Rheumat. Dis., Lond., 1945-46, 5: 83-7.
4. Rheumatoid arthritis; hemolytic streptococcus precipitin reactions.
Wallis, A. D.
Am. J. M. Sc., 1947, 213: 87-93.

5. Rheumatoid arthritis; non-specific serologic reactions.
Wallis, A. D.
Am. J. M. Sc., 1946, 212: 716.
6. Rheumatoid arthritis; the agglutination of hemolytic streptococci.
Wallis, A. D.
Am. J. M. Sc., 1947, 213: 94-6.
7. Rheumatoid arthritis; the pneumococcus antibodies.
Wallis, A. D.
Am. J. M. Sc., 1946, 212: 718-22.
8. Streptococcus serology of rheumatoid arthritis.
Wallis, A. D.
Ann. Rheumat. Dis., Lond., 1947-48, 6: 87-9.
9. Weltmann coagulation reaction in rheumatoid arthritis.
Lucchesi, O., Lucchesi, M., and Bailonie, S.
Ann. Rheumat. Dis., 1945-46, 5: 78-82.

C. Physiology

1. Blood sugar level following intravenous glucose in rheumatoid arthritis.
Flynn, J. C. and Irish, O. J.
Science, 1946, 104: 344-6.
2. Cerebrospinal fluid studies in arthritis.
Hardgrove, M., Furlong, J., and Murphy, G.
Proc. Centr. Soc. Clin. Res., 1947, 20: 80.
3. Cholesterol content of urine in arthritis.
Granirer, L. W.
Med. Clin. N. Amer., 1946, 645-8.
4. Cold-reaction test for peripheral vasomotor disturbances in rheumatism.
Woodmansey, A.
Ann. Rheumat. Dis., Lond., 1945-46, 5: 99-102.
5. Electrophoretic changes in the serum of a patient with rheumatoid arthritis.
Dole, V. P. and Rothbard, S.
J. Clin. Invest., 1947, 26: 87-9.
6. Failure to relate hyaluronic acid to elevated erythrocyte sedimentation rate in rheumatic diseases.
Youngner, J. S. and Altschuler, C. H.
Proc. Soc. Exp. Biol., N. Y., 1948, 67: 92-6

7. Gastrointestinal tract and nutrition in rheumatoid arthritis.
Warter, P. J., Betts, R. W., and Horoschak, S.
Rev. Gastroenter., 1947, 14: 617-23.
8. Investigations of the cerebrospinal fluid in cases of rheumatoid arthritis.
Sundelin, F.
Am. J. Med., 1947, 2: 579-87.
9. Neuromuscular system in rheumatoid arthritis; electromyographic and histologic observations.
Morrison, L. R., Short, C. L., et al.
Am. J. M. Sc., 1947, 214: 33-49.
10. Plasma viscosity in rheumatic diseases.
Cowan, I. C., and Harkness, J.
Brit. M. J., 1947, 2: 686-8.
11. Protein metabolism in rheumatoid arthritis.
Robinson, W. D., and Block, W. D.
Proc. Centr. Soc. Clin. Res., 1947, 20: 90.
12. Relation of the adrenal cortex to arthritis.
Harrison, R. G.
Lancet, Lond., 1946, 1: 815-8.

D. Clinical

1. Abuse of rest in arthritis.
Meyer, O.
Rheumatism, Lond., 1946-47, 3: 111-5.
2. Abuse of rest in arthritis.
Meyer, O.
Med. World, N. Y., 1948, 66: 19.
3. Agglutination reaction for hemolytic streptococci in rheumatoid arthritis, its significance in diagnosis and treatment.
Cecil, R. L., and DeGara, P. F.
Am. J. M. Sc., 1946, 211: 472-9.
4. Allergy of joints.
Griep, L. H.
J. Bone Surg., 1946, 28: 276-9.
5. Analysis of 200 cases of arthritis admitted to an Army general hospital.
Goldstein, K.
N. York State J. M., 1946, 46: 727-34.

6. Antireticular cytotoxin serum in the treatment of arthritis; observations on 44 cases.
Solomon, W. M., and Stecher, R. M.
J. Lab. Clin. M., 1948, 33: 768-71.
7. Army rheumatism centers.
Bull. U. S. Army M. Dep., 1946, 5: 655-62.
8. Arthritic syndromes.
Bauer, J., and McDuffie, J. T.
Med. Rec., N. Y., 1946, 159: 151-5.
9. Arthritic syndromes; Reiter's disease followed by endocarditis and lupus erythematosus disseminatus after sulfathiazole treatment.
Bauer, J., and Arndal, O.
Med. Rec., N. Y., 1946, 159: 277-81.
10. Arthritis.
Canada Health, 1947-1948, 3: No. 6, Special supp. no. 6, 1-8.
11. Arthritis.
Bach, T. F.
Phila., 1947, 97-132.
12. Arthritis.
Bush, P. D.
J. Rehabil., Des Moines, 1947, 13: No. 2, 24-9.
13. Arthritis.
Graham, W.
Treatm. Serv. Bull., Ottawa, 1947, 2: No. 6, 70-2.
14. Arthritis.
Hench, P. S.
J. Am. M. Ass., 1946, 132: 974-9.
15. Arthritis.
Horwitz, M.
Clin. Proc., Cape Town, 1947, 6: 408-18.
16. Arthritis.
Westphal, R. A.
Chiropody Rec., 1946, 29: 182-5.
17. Arthritis and rainfall.
Larsen, N. P.
Plantation Health, Aiea, 1946, No. 2, 25-7.
18. Arthritis, a 1947 concept.
Traut, E. F.
Illinois M. J., 1947, 91: 281-3.
19. Arthritis; evaluation of present day therapy.
Bennett, E. B.
Gen. Pract., Los Ang., 1946, 9: No. 4, 11-12.

20. Arthritis in old age.
Howell, T. H.
Clinics, Phila., 1945-46, 4: 1204-10.
21. Arthritis in the Mediterranean Theater of Operations;
incidence of joint disease; clinical description of
rheumatoid arthritis.
Short, C. L.
N. England J. M., 1947, 236: 383-91.
22. Arthritis treatment program in the D.V.A. Arthritis
Centre at Toronto.
Graham, D. C.
Treatm. Serv. Bull., Ottawa, 1947, 2: No. 5, 5-7.
23. Atrophic arthritis; etiology and treatment.
McCarthy, J. D.
Nebraska M. J., 1946, 31: 189-92.
24. Autotransplantation of joint capsule, an attempt to
disensitize patients suffering from rheumatoid
arthritis.
Novotny, H.
Acta med. scand., 1947-48, 129: 524-46.
25. Basis for the treatment of rheumatoid arthritis.
Persons, E. L.
North Carolina M. J., 1947, 8: 131-4.
26. Bee sting therapy for arthritis and neuritis.
Guyton, F. E.
J. Econ. Entom., 1947, 40: 469-72.
27. Bismuth therapy and physiotherapy in rheumatoid arthritis.
Shulman, J.
Brit. J. Phys. M., 1947, 10: 8-11.
28. Blood sedimentation rate in rheumatoid arthritis and
allied conditions.
Gibson, H. J.
Practitioner, Lond., 1946, 157: 28-35.
29. Blood transfusions in the treatment of rheumatoid arthritis.
Appelquist, O. and Holsti, O.
Schweiz. med. Wschr., 1947, 77: 977-80.
30. Cardiac changes in rheumatoid arthritis.
Clark, W. S. and Bauer, W.
Ann. Rheumat. Dis., Lond., 1948-49, 7: 39.
31. Cardiac lesions in rheumatoid arthritis.
Rosenberg, E. F., Bishop, L. F., et al
Ann. Rheumat. Dis., Lond., 1947-48, 6: 40.

32. Case of rheumatoid arthritis.
Duggan, J. J. and McEwen, C.
Bull. U. S. Army M. Dep., 1947, 7: 898-900.
33. Case of rheumatoid arthritis.
Nelson, B.
Med. Rec., N. Y., 1947, 160: 484.
34. Chronic arthritis.
Cohen, A.
Clinics, Phila., 1945-46, 4: 209-26.
35. Chronic arthritis.
Kuhns, J. G.
Arch. Surg., 1947, 54: 349-64.
36. Chrysotherapy in rheumatoid arthritis.
Ragan, C. and Tyson, T. L.
Am. J. Med., 1946, 1: 252-6.
37. Chrysotherapy in rheumatoid arthritis.
Ragan, C. and Tyson, T. L.
Ann. Rheumat. Dis., Lond., 1947-48, 6: 101-8.
38. Classification and treatment of the rheumatic diseases
with special emphasis on infectious and rheumatoid
arthritis.
Mettier, S. R.
Am. J. Orthodont., 1946, 32: Oral Surg., 440-4.
39. Climate and rheumatoid arthritis.
Conner, S. K.
Arizona M., 1947, 4: No. 4, 37-40.
40. Combined antigens in the treatment of rheumatoid arthritis.
Warter, P. J., Donio, D. A., and Horschak, S.
J. M. Soc. N. Jersey, 1947, 44: 441-5.
41. Common forms of arthritis and rheumatism.
Heald, C. B.
N. Zealand M. J., 1947, 46: 497-509.
42. Continuous follow-up study of 500 arthritics.
Nissen, H. A.
J. Lancet, 1947, 67: 358-61.
43. Controlled evaluation of gold therapy in rheumatoid arthritis.
Waine, H., Baker, F., Mettler, S. R.
California M., 1947, 66: 295.
44. Course of rheumatoid arthritis in patients receiving simple
medical and orthopedic measures.
Short, C. L. and Bauer, W.
N. England J. M., 1948, 238: 142-8.

45. Curare and its effects on rheumatoid arthritis.
Collins, E.
Am. J. Occup. Ther., 1947, 1: 352.
46. Cutaneous temperature of the extremities of normal subjects and of patients with rheumatoid arthritis.
Martin, G. M., Roth, G. M., et al
Arch. Phys. M., 1946, 27: 665-82.
47. Diagnostic pointers in rheumatic diseases.
Goldfain, E.
J. Oklahoma M. Ass., 1948, 41: 225-9.
48. Diagnostic significance of focal cellular accumulations in the skeletal muscles of patients with rheumatoid arthritis.
DeForest, G. K., Bunting, H., and Kenney, W. E.
Ann. Rheumat. Dis., Lond., 1947-48, 6: 86.
49. Diamidines in chemotherapy; a survey of recent developments with a note regarding therapeutic trials in patients with rheumatoid arthritis.
Rosenberg, E. F.
Ann. Int. M., 1946, 25: 832-44.
50. Dietetic management of atrophic arthritis.
Bower, A. G.
Med. Times, N. Y., 1948, 76: 229.
51. Differential diagnosis of subacute febrile arthritis.
Cecil, R. L.
Postgrad. M., 1947, 1: 308-11.
52. Differentiation between psychogenic rheumatism and true rheumatic disease.
Hench, P. S.
Postgrad. M., 1947, 1: 460-6.
53. Directions for the treatment of rheumatic joint diseases with sanocrysin and physical therapy.
Secher, K. I. A.
56 p. Copenhagen, 1946.
54. Diseases simulating arthritis.
Cloyd, A. D.
Nebraska M. J., 1946, 31: 194-6.
55. Disposition of chronic arthritis cases.
Statist. Navy M., 1948, 4: No. 6, 5-9.
56. Early recognition of disease; non-specific arthritis in adults.
Aldred-Brown, G. R. P.
Practitioner, Lond., 1946, 157: 141-6.

57. Effectiveness of streptomycin in arthritis of rats.
Powell, H. M., Jamieson, W. A. and Rice, R. M.
Proc. Soc. Exp. Biol., N. Y., 1946, 62: 8-9.
58. Effect of hespiridin and ascorbic acid on capillary fragility in rheumatoid arthritis, a preliminary report.
Warter, P. J., Drezner, H. L. and Horoschak, S.
J. M. Soc. N. Jersey, 1946, 43: 228-30.
59. Effect of prostigmine (neostigmine) on the muscle spasm of rheumatoid arthritis.
Balboni, V. G., Hollander, J. L. and Kydd, D. M.
Am. J. M. Sc., 1946, 212: 153-8.
60. Effect of prostigmine (neostigmine) on the muscle spasm of rheumatoid arthritis.
Balboni, V. G., Hollander, J. L., and Kydd, D. M.
Ann. Rheumat. Dis., Lond., 1947-48, 6: 110-4.
61. Effects of artificially induced fever on the circulation in arthritic patients.
Wakim, K. G., Krusen, F. H., and Elkins, E. C.
Arch. Phys. M., 1948, 29: 274-84.
62. Ertron in the treatment of arthritis.
Chicago Nutrition Research Laboratories.
Chic., 1947.
63. Evaluation of present-day therapy in rheumatoid arthritis.
Rawls, W. B.
N. York M., 1947, 3: No. 15, 19-22.
64. Experiences with antireticular cytotoxic serum (ACS) in arthritis.
Rogoff, B., Freyberg, R. H., et al
Am. J. M. Sc., 1947, 214: 395-400.
65. First ten years of rheumatic infection in childhood.
Ash, R.
Am. Heart J., 1948, 36: 89-97.
66. General treatment of arthritis.
Marple, C. D.
Clin. Med., 1946, 53: 122.
67. Gold salts for rheumatoid arthritis.
Canad. Hosp., 1947, 24: No. 6, 64.
68. Gold salts for rheumatoid arthritis.
Hench, P. S.
Ann. Int. M., 1947, 26: 618-24.

69. Gold salts in the treatment of rheumatoid arthritis; a report on 150 additional cases.
Oren, H.
Med. Rec., N. Y., 1946, 159: 420.
70. Gold therapy at the Arthritic Clinic, Boston Dispensary.
Brugsch, H. G. and Manning, R. A.
Bull. N. England M. Center, 1947, 9: 248-54.
71. Gold therapy in rheumatoid arthritis.
Browning, J. S., Rice, R. M., et al
N. England J. M., 1947, 237: 428-31.
72. Gold therapy in rheumatoid arthritis.
Darley, W.
Med. World, N. Y., 1947, 65: 257-61.
73. Gold therapy in rheumatoid arthritis.
Darley, W.
Northwest. M., 1947, 46: 34-7.
74. Gold therapy in rheumatoid arthritis.
Short, C. L., Beckman, W. W., and Bauer, W.
N. England J. M., 1946, 235: 362-8.
75. Granulocytopenic and lymphocytopenic hypersplenism associated with atrophic arthritis.
Levy, H.
Acta med. scand., 1947, 129: 203-12.
76. Heart in rheumatoid arthritis.
Rogen, A. S.
Brit. M. J., 1947, 1: 87.
77. Homeopathic remedies in rheumatism.
Cuthbert, E. P.
J. Am. Inst. Homeop., 1947, 40: 388.
78. Importance and significance of blood investigations in rheumatism.
Elman, C.
Med. Press, Lond., 1948, 219: 125-7.
79. Importance of diet in chronic rheumatism:
Milles, H. L.
Med. Press, Lond., 1947, 218: 351-5.
80. Ineffectiveness of aluminum subacetate in rheumatoid arthritis.
Blazer, A., Friedman, H. H., and Steinbracker, O.
N. England J. M., 1948, 238: 507.

81. Ineffective use of streptomycin in rheumatoid arthritis.
Rice, R. M., Browning, J. S. and Powell, H. M.
Am. J. M. Sc., 1947, 214: 64-7.
82. Ineffective use of streptomycin in rheumatoid arthritis;
failure of a type of rat polyarthrititis as screen test
for new drugs in this disease.
Browning, J. S. and Rice, R. M.
Proc. Am. Fed. Clin. Res., 1947, 3: 7.
83. Influence of hesperidin-C on abnormal capillary fragility
in rheumatoid arthritis patients.
Warter, P. J., Drezner, H. L. and Horoshak, S.
Delaware M. J., 1948, 20: 41-5.
84. Inhalation of carbon dioxide in the treatment of rheuma-
toid arthritis.
Cohen, M. A.
Med. Rec., N. Y., 1946, 159: 155-7.
85. Intestinal extract in rheumatic diseases.
Renshaw, A.
Ann. Rheumat. Dis., Lond., 1947-48, 6: 15-26.
86. Juvenile rheumatoid arthritis; a study of fifty-six cases
with a note on skeletal changes.
Coss, J. A., jr., and Boots, R. H.
J. Pediat., St. Louis, 1946, 29: 143-56.
87. Juvenile rheumatoid arthritis (Still's Disease).
Coss, J. A., jr.
Med. Clin. N. Amer., 1946, 586-75.
89. Juvenile rheumatism; a survey from the Children's
Hospital, Melbourne, with an addendum on the
follow-up system of the almoners of the hospital.
Scott, G. E. M.
Med. J. Australia, 1946, 2: 469-80.
90. Kinesotherapy and extension treatment in rheumatoid arthritis.
Edström, G.
Brit. J. Phys. M., 1947, 10: 4-8.
91. Lactic-acid injection of joints.
Howell, T. H.
Lancet, Lond., 1947, 2: 153.
92. Lauron in rheumatoid arthritis; a further report.
Robinson, D.
Canad. M. Ass. J., 1946, 55: 162.

93. Lesions following the use of ertron in rheumatoid arthritis.
Bevens, M., and Taylor, H. K.
Am. J. Path., 1947, 23: 367-87, incl. 6 pl.
94. Limits of effectiveness of streptomycin in arthritis of rats.
Powell, H. M.
J. Bact., Balt., 1946, 52: 399.
95. Low grade fever therapy as an adjuvant in the treatment of certain types of arthritis.
Drewyer, G. E.
Arch. Phys. M., 1948, 29: 284-91.
96. Management of chronic arthritis and other rheumatic diseases among soldiers of the United States Army.
Hench, P. S. and Boland, E. W.
Ann. Int. M., 1946, 24: 808-25.
97. Management of rheumatic disease in the elderly.
Howell, T. H.
Med. World, Lond., 1947, 66: 651-4.

N. York State J. M., 1946, 46: 622.
126. Penicillin for the rheumatoid type of arthritis.
Bach, F.
Ann. Rheumat. Dis., Lond., 1948-49, 7: 25-7.
127. Pericardial effusion in rheumatoid arthritis.
Granirer, L. W.
Med. Clin. N. Amer., 1946, 562-7.
128. Personal experience with neostigmine therapy in rheumatoid arthritis.
Lucchesi, H., and Lucchesi, O.
Ann. Rheumat. Dis., Lond., 1945-46, 5: 214-6.
129. Physical medicine and the rheumatic diseases.
Bach, F.
Brit. J. Phys. M., 1947, 10: 66-9.
130. Physical medicine in the care of rheumatoid arthritis.
Polley, H. F.
South. M. J., 1947, 40: 596-600.

131. Physical medicine in the treatment of arthritis.
Kessler, H.
N. York State J. M., 1947, 47: 1244-7.
132. Physical medicine in the treatment of arthritis.
Kistler, P. M.
Hahneman. Month., 1948, 83: 164-9.
133. Physical medicine in the treatment of rheumatic disorders;
an impression from the war years.
Bach, F.
Arch. Phys. M., 1946, 27: 734-7.
134. Physical medicine in the treatment of rheumatoid arthritis
with associated xanthomas.
Fawls, E. W.
Rheumatism, Lond., 1946-47, 3: 62-72.
135. Physical therapy in chronic arthritis.
Kovacs, R.
Med. Clin. N. Amer., 1946, 623-34.
136. Physical therapy in rheumatic conditions.
Kovacs, R.
Interne, 1946, 12: 43-8.
137. Physical therapy in the treatment of arthritis.
Lockie, L. M., and Musgrove, E.
N. York State J. M., 1947, 47: 851-3.
138. Physical treatment of arthritis.
Solomon, W. M.
J. Am. M. Ass., 1948, 137: 128-30.
139. Physiological rest; with special reference to arthritis and
nerve lesions and to the manufacture of appliances.
Capener, N.
Brit. M. J., 1946, 2: 761-6.
140. Physiotherapy in rheumatic diseases; the choice of suitable
methods at various stages.
Schmidt, L.
Brit. J. Phys. M., 1946, 9: 104-10.
141. Physostigmine for muscle spasm in rheumatoid arthritis.
Cohen, A., Trommer, P. and Goldman, J.
J. Am. M. Ass., 1946, 130: 265-70.
142. Practical considerations in the management of arthritis.
Freyberg, R. H.
Pennsylvania M. J., 1947-48, 51: 729-38.
143. Pregnancy blood for rheumatoid arthritis.
Barsi, I.
Med. Soc. Rep., Scranton, 42: 21.

144. Preliminary report on a psychosomatic study of rheumatoid arthritis.
Johnson, A., Shapiro, L. B., and Alexander, F.
Psychosomat. M., 1947, 9: 295-300.
145. Pre-rheumatoid.
Williams, H. A.
Rheumatism, Lond., 1946, 3: 15.
146. Present day treatment of arthritis.
Cecil, R. L.
Philadelphia M., 1947, 42: 1499-1501.
147. Present day treatment of arthritis.
Cecil, R. L.
Tr. Coll. Physicians Phila., 1947-48, 15: 7-14.
148. Present status of gold therapy in rheumatoid arthritis.
Andersen, L.
J. Am. M. Women Ass., 1947, 2: 115.
149. Present Swiss concepts of rheumatism and physical medicine.
Ott, V.
Ann. Rheumat. Dis., Lond., 1945-46, 206-10, pl.
150. Principles of occupational therapy.
Willard, H. S.
Phila., 1947, 288-300.
151. Problem of dosage in the administration of gold salts for rheumatoid arthritis.
Cecil, R. L.
Med. Clin. N. Amer., 1946, 545-52.
152. Prolonged administration of penicillin in arthritis.
Coss, J. A., jr., Bauman, E., et al
Am. J. Med., 1948, 4: 710-5.
153. Prolonged administration of sulfonamides in rheumatoid arthritis.
Virkkunen, M.
Ann. med. int. fenn., 1947, 36: 198-207.
154. Prolonged observation on a group of arthritic patients.
Horwitz, H. and Joseph, N. R.
Indust. M., 1946, 15: 100-5.
155. Prolonged oral administration of penicillin in rheumatoid arthritis.
Coss, J. A., jr., Boots, R. H., and Lipman, M. O.
Ann. Rheumat. Dis., Lond., 1947-48, 6: 108.

156. Recent advances in the management of patients with
rheumatoid arthritis.
Holbrook, W. P.
N. York H., 1948, 4: No. 7, 17-21.
157. Recent therapeutic experiences in rheumatoid arthritis.
Boots, R. H., Coss, J. A., jr., and Ragan, C.
Tr. Ass. Am. Physicians, 1947, 60: 259-63.

Brit. M. J., 1947, 2: 483-5, p. 1.
179. Rheumatoid arthritis and its management.
Hamilton, J. F.
Mississippi Doctor, 1947-48, 25: 169-76.
180. Rheumatoid arthritis and osteoarthritis.
White, A. J. M.
Med. J. Australia, 1948, 1: 449.
181. Rheumatoid arthritis; a review of recent literature.
Boland, E. W.
California M., 1947, 67: 315-24.
182. Rheumatoid arthritis in children; a clinical study.
Edström, G.
Acta paediat., Upps., 1947, 34: 334-56.

183. Rheumatoid arthritis in children; a clinical study.
Pickard, N. S.
Arch. Int. M., 1947, 80: 771-90.
184. Rheumatoid arthritis in patients receiving simple medical and orthopaedic measures.
Short, C. L., and Bauer, W.
Ann. Rheumat. Dis., Lond., 1948-49, 7: 44.
185. Rheumatoid arthritis; the diagnostic significance of focal cellular accumulations in the skeletal muscles.
DeForest, G. K., Bunting, H., and Kenney, W. E.
Am. J. Med., 1947, 2: 40-4.
186. Rheumatoid arthritis, with case history report.
Sansome, R. E.
J. Nat. Ass. Chiropod., 1946, 36: No. 4, 8-17.
187. Roentgen diagnostic aspects of chronic arthritis and bursitis.
Paul, L. W., and Moir, W. W.
Radiology, 1947, 49: 6-18.
188. Roentgen therapy for rheumatic diseases.
Freyberg, R. H.
Med. Clin. N. America, 1946, 603-15.
189. Roentgen therapy of the arthritides and ligamentous, tendinous and bursal inflammations.
Gelber, L. J.
Med. Rec., N. Y., 1946, 159: 415-20.
190. Significance of subcutaneous nodules in rheumatoid arthritis.
Lucchesi, M., and Lucchesi, O.
Ann. Rheumat. Dis., Lond., 1947-48, 6: 218-23.
191. Simple classification of the chronic rheumatic diseases.
Furber, S.
Rheumatism, Lond., 1946-47, 3: 99; 102.
192. Sodium-bismuthyl-tartrate in the treatment of rheumatism.
Hall, P.
Punjab M. J., 1946, 11: 18-21.
193. Some aspects of chronic rheumatism.
Eastwood, C. G.
J. Chart. Soc. Physiother., Lond., 1945-46, 31: 106-9.
194. Some methods of treatment of rheumatism in the U. S. A.
Kellgren, N.
Rheumatism, Lond., 3: 30.
195. Some observations on the types of rheumatoid arthritis with special reference to one associated with hypertonus.
Parr, L. J. A., and Shipton, E.

196. Some practical considerations in the management of arthritis.
Hollander, J. L.
West Virginia M. J., 1948, 44: 1-6.
197. Specific diagnosis of rheumatoid arthritis.
Stengel, E.
Med. Rec., N. Y., 1946, 159: 281-3.
198. Speransky's methods of spinal pumping in rheumatoid arthritis;
a review of 4 cases.
Savage, O.
Brit. M. J., 1948, 1: 496.
199. Spinal pumping.
Bodman, F.
Brit. M. J., 1947, 2: 273.
200. Spinal pumping.
Brierley, J. B., Field, E. J., et al.
Brit. M. J., 1947, 2: 147.
201. Spinal pumping.
Field, E. J., and Brierley, J. B.
Brit. M. J., 1947, 2: 228.
202. Splenectomy in the treatment of the rheumatoid type of
arthritis.
Bach, F.
Proc. R. Soc. M., Lond., 1945-46, 39: 306.
203. Still - Chauffard syndrome; rheumatoid arthritis with
systemic manifestations.
Graham, G. S., jr.
J. M. Ass. Alabama, 1945-46, 15: 323-7.
204. Still's disease (atrophic arthritis, atrophic rheumatoid
arthritis or infectious rheumatoid arthritis).
Burdick, W. F.
South. M. J., 1946, 39: 626-30.
205. Still's disease successfully treated with prostigmine; report
of a case.
Rittwagen, M.
Arch. Pediat., N. Y., 1946, 63: 630-8.
206. Studies of the peripheral circulation in rheumatoid arthritis.
Routti, O.
Ann. med. int. fenn., 1947, 36: 158-66.
207. Study of the marrow in arthritis.
Traut, E. F., and Schwartz, S. O.
Proc. Centr. Soc. Clin. Res., 1947, 20: 39.

208. Succinate-salicylate therapy in arthritis.
Szucs, M. M.
Ohio M. J., 1947, 43: 1035-41.
209. Sunderland Infirmary new drug for arthritis.
Raff, A.
S. Afr. M. J., 1947, 21: 349-51.
210. Surgery in the treatment of rheumatoid arthritis and
ankylosing spondylites.
Law, W. A.
Proc. R. Soc. M., Lond., 1948, 41: 251-60.
211. Surgery of the rheumatoid diseases.
Bastow, J.
Postgrad. M. J., Lond., 1947, 23: 325-38.
212. Surgical reconstruction of arthritis.
Rhineland, F. W.
Surger, 1946, 19: 866.
213. Surgical treatment of arthritis.
Young, H. H.
Am. J. Nurs., 1948, 48: 27-9.
214. Surgical treatment of the aged arthritic; a review of
procedures useful in geriatrics.
Kestler, O. C.
Geriatrics, 1947, 2: 283-6.
215. Therapeutic considerations of the rheumatic diseases.
McCarthy, A. C.
Kentucky M. J., 1947, 45: 246-51.
216. Therapeutic results in rheumatoid arthritis.
Steinbrocker, O.
J. Am. M. Ass., 1946, 131: 189-93.
217. Therapeutic score card for rheumatoid arthritis; a
standardized method of appraising results of treatment.
Steinbrocker, O., and Blazer, A.
N. England J. M., 1946, 235: 501-6.
218. Treatment of acute arthritis with fever therapy.
Fulton, C. L.
Marquette M. Rev., 1946-47, 12: 16-22.
219. Treatment of arthritis and rheumatism in general
practic, particularly in women; a different
approach to the problem, with 230 case histories
and a list of useful drugs.
Aschner, B.
N. Y., 1946.

220. Treatment of arthritis by electrically activated vaporized ergosterol; a preliminary report.
Norris, G.
Rheumatism, Lond., 1946-47, 3: 106.
221. Treatment of arthritis by intra-articular injection.
Baker, D. M., and Chayen, M. S.
Lancet, Lond., 1948, 1: 93-7.
222. Treatment of arthritis by intra-articular injection.
Baker, D. M., and Chayen, M. S.
Lancet, Lond., 1948, 1: 347-48.
223. Treatment of rheumatoid and infective arthritis by the sulphonamides; with special reference to proseptasine, sulphadiazine, and sulphaguanidine.
Parr, L. J. A., and Shipton, E. A.
Rheumatism, Lond., 1946-47, 3: 139-52.
224. Treatment of rheumatoid arthritis.
Barsi, I.
Brit. M. J., 1948, 1: 227.
225. Treatment of rheumatoid arthritis.
Davison, R.
Stanford M. Bull., 1946, 4: 15-20.
226. Treatment of rheumatoid arthritis.
Pinckney, M. M.
Virginia M. Month., 1948, 75: 131-3.
227. Treatment of rheumatoid arthritis.
Schmidt, L.
Brit. M. J., 1948, 1: 365.
228. Treatment of rheumatoid arthritis.
Tegner, W. S.
Lancet, Lond., 1948, 1: 469-72.
229. Treatment of rheumatoid arthritis by electropyrrexia.
Hales, H.
Med. Press, Lond., 1948, 219: 174-7.
230. Treatment of rheumatoid arthritis; results with a new gold compound of low toxicity.
Rose, P. A.
Illinois M. J., 1947, 92: 175-81.
231. Treatment of rheumatoid arthritis via vasodilatation.
Kurtz, C. M., and Orth, O. S.
Interne, 1946, 12: 607-12.

232. Treatment of rheumatism in general practice. 4 ed.
Copeman, W. S. C.
Balt., 1946.
233. Twelve years' experience in roentgenotherapy for
chronic arthritis.
Kuhns, J. G., and Morrison, S. L.
N. England J. M., 1946, 235: 399-405.
234. Unusual forms of rheumatic pain.
Cecil, R. L.
J. Michigan M. Soc., 1948, 47: 516-8.
235. Use and abuse of physical therapy in the treatment of
arthritis.
Traut, E. F.
Illinois M. J., 1947, 92: 238.
236. Use of folic acid in the treatment of anemia of
rheumatoid arthritis; a preliminary report.
Stephens, C. A. L., jr., Borden, A. L., et al.
Ann. Int. M., 1947, 27: 420-32.
237. Use of gold salts in the treatment of rheumatoid
arthritis.
Wilkinson, J. N.
Clin. Virginia Mason Hosp., Seattle, 1946, 24: 46-8.
238. Use of physostigmine in arthritis.
J. Iowa M. Soc., 1946, 36: 109-110.
239. Use of vitamins in the treatment of chronic arthritis.
Traeger, C. H.
Med. Clin. N. Amer., 1946, 616-22.
240. Value of massage in rheumatoid arthritis.
Hopkins, F.
Virginia M. Month., 1946, 73: 62.
241. Vascular approach to the treatment of rheumatoid
arthritis; a preliminary report.
Boucek, R. J., and Lowman, E. W.
Am. J. M. Sc., 1948, 215: 198-208.
242. Vitamin D. (ertron) therapy in arthritis; treatment
followed by massive, metastatic calcification, renal
damage and death.
Kaufman, P., Beck, R. D., and Wiseman, R. D.
J. Am. M. Ass., 1947, 134: 688-90.
243. Vitamin D therapy in arthritis.
Squires, W. H.
J. Am. M. Ass., 1947, 135: 244.

244. What can orthopedics offer the arthritic.
Balensweig, I.
Med. Clin. N. Amer., 1946, 635-44.
245. X-ray appearance in chronic rheumatism.
Stevens, G. D.
Ann. Rheumat. Dis., Lond., 1947-48, 6: 1-14,
illust. p. 27-35.
246. X-ray diagnosis and therapy in arthritis.
Godfrey, M. F.
California M., 1948, 69: 16-8.
247. X-ray therapy of arthritis and bursitis.
Gelber, L. J.
Med. Rec., N. Y., 1947, 160: 344-50.

Tanner, B.
Med. Times, N. Y., 1948, 76: 29-31.
30. Rheumatology and the community.
Ann. Rheumat. Dis., Lond., 1947-48, 6: 186-8.
31. Unit of rheumatology.
Hosp. & Health Management, 1946, 9: 341-4.

II. Osteoarthritis

A. Etiology and Pathology

1. Aetiology of chronic rheumatism.
Copeman, W. S. C., Ellman, P., et al
Proc. R. Soc. M., Lond., 1946-47, 40: 329-46.
2. Attempts at the experimental production of arthritis.
Pemberton, R., Eiman, J., et al
J. Lab. Clin. M., 1947, 32: 1121-9.
3. Focal infection in relation to rheumatic diseases; a critical appraisal.
Freyberg, R. H.
J. Am. Dent. Ass., 1946, 33: 1101-8.
4. Glasser's disease of swine.
Sutherland, A. K., and Simmons, G. C.
Austral. Vet. J., 1947, 23: 91-4.
5. Medical disorders of the locomotor system including the rheumatic diseases.
Fletcher, E. T. D.
Edinb., 1947, 305-15.
6. On the etiology of clubbing of the fingers.
Mauer, E. F.
Am. Heart J., 1947, 34: 852-9.
7. Pathology of rheumatic diseases.
Angevine, D. M.
Radiology, 1947, 49: 1-5.
8. Production of experimental polyarthrititis by pleuro-pneumonia-like (L4) organisms in rats and preliminary results on protective effects of a gold product.
Tripi, H. B., and Kuzell, W. C.
Stanford M. Bull., 1947, 5: 98-103.
9. Rheumatic disease; etiological aspects.
Thompson, M. H.
Kentucky M. J., 1947, 45: 236-42.

B. Clinical

1. Analysis of 200 cases of arthritis admitted to an Army general hospital.
Goldstein, K.
N. York State J. M., 1946, 46: 727-34.
2. Antireticular cytotoxin serum in the treatment of arthritis; observations on 44 cases.
Solomon, W. M., and Stecher, R. M.
J. Lab. Clin. M., 1948, 33: 768-71.
3. Army rheumatism centers.
Bull. U. S. Army M. Dep., 1946, 5: 655-62.
4. Arthritis.
Bach, T. F.
Phila., 1947, 193-214.
5. Arthritis.
Bush, P. D.
J. Rehabil., Des Moines, 1947, 13: No. 2, 24-9.
6. Arthritis.
Graham, W.
Treatm. Serv. Bull., Ottawa, 1947, 2: No. 6, 70-2.
7. Arthritis.
Hench, P. S.
J. Am. M. Ass., 1946, 132: 974-9.
8. Arthritis.
Horwitz, M.
Clin. Proc., Cape Town, 1947, 6: 408-18.
9. Arthritis.
Woods, W. V.
J. Indiana M. Ass., 1946, 39: 603-4.
10. Arthritis and high blood pressure.
Porter, G. C.
Nat. Eclect. M. Q., 1946-47, 38: No. 4, 11.
11. Arthritis, a 1947 concept.
Traut, E. F.
Illinois M. J., 1947, 91: 281-3.
12. Arthritis deformans as an endocrine disease.
Crabb, J. A.
Med. World, N. Y., 1946, 64: 152.
13. Arthritis in old age.
Howell, T. H.
Clinics, Phila., 1945-46, 4: 1204-10.

14. Arthritis in the Mediterranean Theater of Operations;
clinical description of hypertrophic arthritis,
arthralgia and psychogenic rheumatism.
Short, C. L.
N. England J. M., 1947, 236: 429-37.
15. Arthritis treatment program in the D. V. A. Arthritis
Centre at Toronto.
Graham, D. C.
Treatm. Serv. Bull., Ottawa, 1947, 2: No. 5, 5-7.
16. Case of hypertrophic osteoarthropathy.
Ayre, W. B.
Canad. M. Ass. J., 1947, 56: 71-3.
17. Chronic arthritis.
Cohen, A.
Clinics, Phila., 1945-46, 4: 209-26.
18. Chronic idiopathic hypertrophic osteoarthropathy.
Camp, J. D., and Scanlan, R. L.
Radiology, 1948, 50: 581-94.
19. Chronic rheumatic diseases.
Whelton, A.
J. M. Ass. Eire, 1947, 21: 7.
20. Common forms of arthritis and rheumatism.
Heald, C. B.
N. Zealand M. J., 1947, 46: 497-509.
21. Conquering arthritis and rheumatism.
Aschner, B.
Nat. Eclect. M. Q., 1945-46, 37: No. 3, 13-15;
No. 4, 13.
22. Continuous follow-up study of 500 arthritics.
Nissen, H. A.
J. Lancet, 1947, 67: 358-61.
23. Degenerative joint disease.
Arch. Phys. M., 1946, 27: 437.
24. Diagnostic pointers in rheumatic diseases.
Goldfain, E.
J. Oklahoma M. Ass., 1948, 41: 225-9.
25. Differentiation between psychogenic rheumatism and
true rheumatic disease.
Hench, P. S.
Postgrad. M., 1947, 1: 460-6.

26. Diseases simulating arthritis.
Cloyd, A. D.
Nebraska M. J., 1946, 31: 194-6.
27. Early signs and symptoms of osteo-arthritis.
Tucker, W. E.
Med. Press, Lond., 1948, 219: 60-2.
28. Ertron in the treatment of arthritis.
Chicago Nutrition Research Laboratories
Chic., 1947.
29. General treatment of arthritis.
Maxple, C. D.
Clin. Med., 1946, 53: 122.
30. Hypertrophic secondary pulmonary osteoarthropathy
(Marie's syndrome).
Duncan, J. H.
Canad. M. Ass. J., 1947, 56: 70.
31. Hypertrophic pulmonary osteoarthropathy.
Gottlieb, C., Sharlin, H. S., and Feld, H.
J. Pediat., S. Louis, 1947, 30: 462-7.
32. Importance of diet in chronic rheumatism.
Milles, H. L.
Med. Press, Lond., 1947, 218: 351-5.
33. Intra-articular injection for osteo-arthritis.
Holmes, J.
Lancet, Lond., 1948, 1: 653.
34. Intra-articular injection in osteoarthritis.
Crowe, H. W.
Brit. M. J., 1947, 1: 159.
35. Lactic-acid injections of joints.
Heald, C. B., and Martin, A. J.
Lancet, Lond., 1947, 2: 110.
36. Lactic-acid injection of joints.
Howell, T. H.
Lancet, Lond., 1947, 2: 153.
37. Management of arthritis in the menopause.
Aschner, B.
Med. World, N. Y., 1947, 65: 66-72.
38. Management of chronic arthritis and other rheumatic
diseases among soldiers of the United States Army.
Hench, P. S., and Boland, E. W.
Ann. Int. M., 1946, 24: 808-25.

39. Management of rheumatic disease in the elderly.
Howell, T. H.
Med. World, Lond., 1947, 66: 651-4.
40. Managing your arthritis.
Carll, I. G.
Phila., 1947.
41. Menopausal arthritis.
Greenblatt, R. B., and Kupperman, H. S.
Med. Clin. N. Amer., 1946, 576-83.
42. Menopausal arthritis.
Raff, A.
S. Afr. M. J., 1947, 21: 294-8.
43. New method of local treatment of rheumatoid and
traumatic affections of the joints.
Kestler, O. C.
Geriatrics, 1946, 1: 159-63.
44. New treatment of osteoarthritis.
Laughton-Scott, G.
Clin. Med., 1947, 54: 85-7.
45. New treatments in rheumatism.
Savage, O.
Nurs. Times, Lond., 1947, 43: 762.
46. Orthopedic specialist's contribution to the manage-
ment of the arthritic patient.
Clybourne, H. E., and Siehl, D.
J. Am. Osteopath. Ass., 1946-47, 46: 620-2.
47. Osteoarthritis.
Walsh, E.
Nebraska M. J., 1946, 31: 196-8.
48. Pain in the rheumatic diseases.
Kersley, G. D.
Practitioner, Lond., 1947, 159: 60-5.
49. Physical medicine in the home treatment of arthritis.
Kendell, H. W., Polley, H. F., and Krusen, F. H.
Rheumatism, Lond., 1946-47, 3: 86; 103.
50. Physical medicine in the treatment of arthritis.
Kessler, H.
N. York State J. M., 1947, 47: 1244-7.
51. Physical therapy in chronic arthritis.
Kovacs, R.
Med. Clin. N. Amer., 1946, 623-34.

52. Physical therapy in the treatment of arthritis.
Lockie, L. M., and Musgrove, E.
N. York State J. M., 1947, 47: 851-3.
53. Physiological rest; with special reference to arthritis and nerve lesions and to the manufacture of appliances.
Capener, N.
Brit. M. J., 1946, 2: 761-6.
54. Physiotherapy in rheumatic diseases; the choice of suitable methods at various stages.
Schmidt, L.
Brit. J. Phys. M., 1946, 9: 104-10.
55. Place of the foot clinic in the treatment of rheumatism.
Meyer, O.
Rheumatism, Lond., 1946-47, 3: 89-94.
56. Practical considerations in the management of arthritis.
Freyberg, R. H.
Pennsylvania M. J., 1947-48, 51: 729-38.
57. Present day treatment of arthritis.
Cecil, R. L.
Tr. Coll. Physicians Phila., 1947-48, 15: 7-14.
58. Present Swiss concepts of rheumatism and physical medicine.
Ott, V.
Ann. Rheumat. Dis., Lond., 1945-46, 206-10, pl.
59. Pulmonary hypertrophic osteoarthropathy.
Rothendler, H. H.
Bull. Hosp. Joint Dis., N. Y., 1946, 7: 43-50.
60. Pulmonary osteoarthropathy.
Braun, K.
Harefuah, Tel Aviv, 1947, 33: 81.
61. Radiological interpretation of chronic rheumatic arthritis.
Seth-Smith, D. W.
Rheumatism, Lond., 1948-49, 4: 186; passim.
62. Relationship between pulmonary osteoarthropathy and rheumatoid arthritis.
Bywaters, E. G. L.
Ann. Rheumat. Dis., Lond., 1948-49, 7: 24.
63. Rheumatic diseases; diagnostic aspects.
Buttorff, G. S.
Kentucky M. J., 1947, 45: 242-6.

64. Rheumatism.
Barnett, H. N.
Med. World, Lond., 1946-47, 65: 42-4.
65. Rheumatism.
O'Reilly, T. J.
J. M. Ass. Eire, 1947, 21: 2-7.
66. Rheumatism and arthritis.
Roche Rev., Nutley, N. J., 1947, 12: 77-96.
67. Rheumatoid arthritis and osteoarthritis.
White, A. J. M.
Med. J. Australia, 1948, 1: 449.
68. Roentgen diagnostic aspects of chronic arthritis and bursitis.
Paul, L. W., and Moir, W. W.
Radiology, 1947, 49: 6-18.
69. Roentgen therapy for rheumatic diseases.
Freyberg, R. H.
Med. Clin. N. Amer., 1946, 603-15.
70. Roentgen therapy in arthritis, bursitis, and allied conditions.
Pohle, E. A., and Morton, J. A.
Radiology, 1947, 49: 19-25.
71. Roentgen therapy of the arthritides and ligamentous, tendinous and bursal inflammations.
Gelber, L. J.
Med. Rec., N. Y., 1946, 159: 415-20.
72. Secondary hypertrophic osteoarthropathy in congenital heart disease.
Means, M. G., and Brown, N. W.
Am. Heart J., 1947, 34: 262-71.
73. Succinate-salicylate therapy in arthritis.
Szucs, M. M.
Ohio M. J., 1947, 43: 1035-41.
74. Surgical treatment of the aged arthritic; a review of procedures useful in geriatrics.
Kestler, O. C.
Geriatrics, 1947, 2: 283-6.
75. Therapeutic considerations of the rheumatic diseases.
McCarthy, A. C.
Kentucky M. J., 1947, 45: 246-51.
76. Treatment of acute arthritis with fever therapy.
Fulton, C. L.
Marquette M. Rev., 1946-47, 12: 16-22.

77. Treatment of arthritis and rheumatism in general practice, particularly in women; a different approach to the problem, with 230 case histories and a list of useful drugs.
Aschner, B.
N. Y., 1946.
78. Treatment of arthritis by intra-articular injection.
Baker, D. M., and Chayen, M. S.
Lancet, Lond., 1948, 1: 93-7.
79. Treatment of arthritis by intra-articular injection.
Baker, D. M., and Chayen, M. S.
Lancet, Lond., 1948, 1: 347-48.
80. Treatment of osteoarthritis by lactic acid injection; a series of 26 consecutive cases in general practice.
Mawson, R.
Brit. M. J., 1946, 2: 691-3.
81. Treatment of osteoarthritis with intra-articular injections of lactic acid.
Ramamurthi, B.
Ind. M. Gaz., 1947, 82: 264.
82. Treatment of osteo-arthritis with procaine lactic acid.
Nicholson, D. P.
Ann. Rheumat. Dis., Lond., 1948-49, 7: 28.
83. Treatment of rheumatism in general practice. 4th ed.
Copeman, W. S. C.
Balt., 1946.
84. Twelve years' experience in roentgenotherapy for chronic arthritis.
Kuhns, J. G., and Morrison, S. L.
N. England J. M., 1946, 235: 399-405.
85. Unusual forms of rheumatic pain.
Cecil, R. L.
J. Michigan M. Soc., 1948, 47: 516-8.
86. X-ray appearance in chronic rheumatism.
Stevens, G. D.
Ann. Rheumat. Dis., Lond., 1947-48, 6: 1-14,
illust. p. 27-35.
87. X-ray diagnosis and therapy in arthritis.
Godfrey, M. F.
California M., 1948, 69: 16-8.

88. X-ray therapy of arthritis and bursitis.
Gelber, L. J.
Med. Rec., N. Y., 1947, 160: 344-50.

C. Public Health and Social Welfare

1. Arthritis and working ability.
Heald, C. B.
N. Zealand M. J., 1948, 47: 17-23.
2. Chronic rheumatic diseases from the Services in
E. M. S. hospitals.
Buckley, C. W.
Ann. Rheumat. Dis., Lond., 1945-46, 5: 122-5.
3. Chronic rheumatic diseases in the World War 1939-1945.
Copeman, W. S. C.
Ann. Rheumat. Dis., Lond., 1945-46, 5: 115-21.
4. Chronic rheumatism in Scotland.
Ann. Rheumat. Dis., Lond., 1945-46, 5: 26-27.
5. Help for the arthritic.
Norcross, B. M., and Lockie, L. M.
Pub. Health Nurs., 1948, 40: 90-93.
6. Incidence of rheumatism.
Nisbet, B. R.
Ann. Rheumat. Dis., Lond., 1945-46, 5: 168-70.
7. Organization of rheumatism research and treatment in
Sweden.
Höjer, J. A.
Ann. Rheumat. Dis., Lond., 1945-46, 5: 183-91,
incl. illust.
8. Principles of acknowledging compensation claims for
arthritis.
Englehart, E. E.
Indust. M., 1946, 15: 626-8.
9. Problem of chronic arthritis.
Eaton, E. R.
Mil. Surgeon, 1948, 102: 117-9.
10. Problem of rheumatism to-day and to-morrow.
Fraser, T. N.
Surgo, Glasgow, 1945-46, 12: 10-3.

11. Problems of rheumatism.
Cohen, H.
J. Chart. Soc. Physiother., Lond., 1946-47, 32:
149-52.
12. Rheumatic diseases; a challenge and an opportunity.
Cohen, H.
Proc. R. Soc. M., Lond., 1946-47, 40: 443-52.
13. Rheumatic diseases among American soldiers in World War II.
Hench, P. S.
Ann. Rheumat. Dis., Lond., 1947-48, 6: 68-73.
14. Rheumatism in industry.
Copeman, W. S. C.
Nurs. Mirror, Lond., 1946, 83: 381; 405.
15. Rheumatism in Sweden.
Copeman, W. S. C.
Ann. Rheumat. Dis., Lond., 1945-46, 5: 17-9.
16. Rheumatism, notes on its causes; its incidence and its prevention; with a plan for national action.
5th ed.
Horder, Sir T. J. H.
Lond., 1947.
17. Rheumatism research goes ahead in Britain.
Tanner, B.
Med. Times, N. Y., 1948, 76: 29-31.

STRUCTURAL COMPONENTS

I. Bone

A. Anatomy and Histology

1. Elimination of fat and protein prior to the selective staining of bone.
True, R. H.
Stain Techn., 1948, 23: 119-22
2. Experimental production of heterotopic bone.
Wyburn, G. M., and Bacsich, P.
J. Anat., Lond., 1947, 81: 380.
3. Fibrillar structure of adult human bone.
Ruth, E. B.
Anat. Rec., 1946, 94: 493.
4. Improved method for cutting undecalcified bone sections and its application to radio-autography.
Axelrod, D. J.
Anat. Rec., 1947, 98: 19-24.
5. Influence of position on the measurement of the projected bone angle.
Klinefelter, E. W.
Am. J. Roentg., 1946, 55: 722-5.
6. Localization of alkaline phosphatase in mammalian bones.
Lorch, I. J.
Q. J. Micr. Sc., Lond., 1947, 88: 367-81, pl.
7. Measurement of bone opacity.
Bywaters, E. G. L.
Clin. Sc., Lond., 1946-48, 6: 281-7.
8. Method of decalcifying bone for histologic section.
Richman, I. M., Gelfand, M., and Hill, J. M.
Arch. Path., Chic., 1947, 44: 92-5.
9. Preliminary studies of bone decalcification.
Campbell, M. K.
J. Iowa M. Soc., 1948, 38: 250-5.
10. Preparation of thin serial ground sections of whole teeth and jaws and other highly calcified and brittle structures.
Sognnaes, R. F.
Anat. Rec., 1947, 99: 133-44, incl. 2 pl.
11. Quantitative investigation of aboriginal sites; analyses of human bone.
Cook, S. F., and Heizer, R. F.
Am. J. Phys. Anthrop., 1947, 5: 201-19.

12. Rapid method for celloidin impregnation of undecalcified bone.
Bertrand, J. J.
Science, 1948, 107: 152.
13. Roentgenological technique for the measurement of long bones.
Burkard, H. J.
X-ray Technician, 1947-48, 19: 305.
14. Some factors associated with variations in nitrogen and ash content of bone.
Strobino, L. J.
Fed. Proc., Balt., 1948, 7: 281.
15. Some observations on the maturation of the histo-morphology of human bone.
Ruth, E. B., and Haury, E. W.
Anat. Rec., 1947, 97: 404.
16. Specific surfaces of bone, apatite, enamel, and dentine.
Wood, N. V., jr.
Science, 1947, 105: 531.
17. Study of bone matrix; the application of its replacement with artificial substitutes.
Hudack, S. S., Blunt, J. W., and Darby, E. M. K.
Am. J. Surg., 1947, 74: 579-85.

B. Growth and Development

1. Absence of synergistic action of estrogens and androgens in the formation of medullary bone in the English sparrow, Passer domesticus.
Pfeiffer, C. A.
Anat. Rec., 1946, 94: 326.
2. Alkaline phosphatase in bone formation.
Greep, R. O.
Anat. Rec., 1948, 100: 667.
3. Alkaline phosphatase in odontogenesis and osteogenesis and its histo-chemical demonstration after demineralization.
Creep, R. O., Fischer, C. J., and Morse, A.
J. Am. Dent. Ass., 1948, 36: 427-42.

4. Appearance and growth of ossification centers and increases in the body dimensions of white and Negro infants.
Kelly, H. J., and Reynolds, L.
Am. J. Roentg., 1947, 57: 477-516.
5. Biological factors in calcification in bone.
McLean, F. C., Lipton, M. A., et al.
Tr. Conf. Metab. Aspects Convalesc., 1946, 14. meet., 9-19.
6. Bone cyst; regeneration of bone following subperiosteal resection.
Fett, H. C., Sansone, F. X., and Westin, G. W.
Am. J. Surg., 1947, 74: 886-8.
7. Bone formation:
Slessor, A., and Wyburn, G. M.
J. Anat., Lond., 1947, 81: 393.
8. Bone formation by fresh and frozen transplants of bone, bone marrow and periosteum.
DeBruyn, P. P. H.
Anat. Rec., 1947, 99: 641.
9. Bone growth in normal and retarded growth rats.
Barnes, L. L., Sperling, G., and McCay, C. M.
J. Geront., 1947, 2: 240-3.
10. Bone growth in the rat as related to age and body weight.
Zucker, T. F., and Zucker, L. M.
Am. J. Physiol., 1946, 146: 585-92.
11. Control of accretion and absorption in membrane bones.
Charles, S. W.
J. Anat., Lond., 1946, 80: 220.
12. Differences in bones as regards their response to the pituitary growth hormone.
Evans, H. M., Becks, H., et al.
Anat. Rec., 1948, 100: 739.
13. Effect of estrin medication in osteogenesis imperfecta.
Ropes, M. W., Rosseisl, E. C., and Bauer, W.
Tr. Conf. Metab. Aspects Convalesc., 1946, 14. meet., 87-99.
14. Effect of hormones on osteogenesis in man.
Albright, F.
Recent Progr. Hormone Res., 1947, 1: 293-353.

15. Effect of pH on bone grown in tissue culture.
Paff, G. H.
Anat. Rec., 1948, 100: 702.
16. Effects of thiouracil, estradiol and testosterone propionate on the time appearance of the ossification centers of the rat.
Noback, C. R., Barnett, J. C., Kupperman, H. S.
Anat. Rec., 1947, 97: 399.
17. Experimental investigation into post-foetal osteogenesis.
Bertelsen, A.
Acta orthop. scand., 1944, 15: 139-81.
18. Further investigations on the effect of the male sex hormone on endochondral ossification.
Silberberg, M., and Silberberg, R.
Anat. Rec., 1946, 95: 97-117, incl. 3 pl.
19. Genetic differences in the ossification pattern of the rabbit.
Crary, D. D., and Sawin, P. B.
Anat. Rec., 1947, 97: 327.
20. Influence of mechanical factors on the development and structure of bone.
Townesley, W.
Am. J. Phys. Anthrop., 1948, 6: 25-45, incl. 3 pl.
21. Influence of phosphorus, calcium and vitamin D₃ upon the fat content of the skeleton in growing pigs.
Nordfeldt, S.
J. Nutrit., 1946, 31: 565-72.
22. Lines of growth in long bones of Indians; a preliminary report.
Khan, A. H., and Chatterjee, C. S.
J. Ind. M. Ass., 1946-47, 16: 111-3, 2 pl.
23. Mechanical retardation of bone growth.
Haas, S. L.
J. Bone Surg., 1948, 30A: 506-12.
24. On the occurrence in vitro of cells resembling osteoclasts.
Hancox, N. M.
J. Physiol., Lond., 1946-47, 105: 66-71, 2 pl.
25. Organizers and the growth of bone.
Lacroix, P.
J. Bone Surg., 1947, 29: 292-6.

26. Osteoblasts and osteoclasts in smears of bone marrow.
Sundberg, R. D., and Hodgson, R. E.
Anat. Rec., 1948, 100: 717.
27. Phosphatase and bone formation.
Slessor, A., and Wyburn, G. M.
Lancet, Lond., 1948, 1: 212.
28. Principles of growth and repair in membrane bones.
Pritchard, J. J.
J. Anat., Lond., 1946, 80: 218.
29. Stimulation of new bone production.
Pritchard, J. J.
J. Anat., Lond., 1946, 80: 235.
30. Studies on the relation of the serum albumin to the formation of bone matrix.
Forbes, A. P.
J. Clin. Invest., 1947, 26: 1181.
31. Study of new bone formation provoked by subperiosteal injection of blood plasma, extract of bone marrow, etc., an investigation by experiments on animals.
Hellstadius, A.
Acta chir. scand., 1947, 95: 31-53, 2 pl.
32. Supravital staining of osteoclasts with neutral-red; their distribution on the parietal bone of normal growing mice, and a comparison with the mutants gray-lethal and hydrocephalus-3.
Barnicot, N. A.
Proc. R. Soc., Lond., Ser. B., 1947, 134: 467-85, 2 pl.
33. Survival of transplanted embryo bone grafted to chorio-allantoic membrane, and subsequent osteogenesis.
Hancox, N. M.
J. Physiol., Lond., 1947, 106: 279-85, pl.
34. Reattachment and bone regeneration; report of case.
Bjorndahl, O.
J. Am. Dent. Ass., 1948, 36: 356-8.
35. Regeneration of bone following deep X-ray therapy.
Duval, F.
Med. J. Australia, 1947, 2: 342.
36. Theory of primary calcification in bone.
Dalleman, M. J.
Nature, Lond., 1948, 161: 115-7.

37. Unusual regeneration of bone in a child.
Magilligan, D. J.
J. Bone Surg., 1946, 28: 873-6.

C. Physiology

1. Calcium and citric acid metabolism in bone diseases.
Frantl, P., and Rome, N.
Proc. R. Australas. Coll. Physicians, 1947, 2: 52-5.
2. Calcium exchange in bone using radiocalcium in vitro.
Hodge, H. C., Falkenheim, M., and Emery, E.
Fed. Proc., Balt., 1947, 6: 262.
3. Chemical nature of salts from bones and teeth and of tri-calcium phosphate precipitates.
Brasseur, H., Dallemagne, M. J., and Melon, J.
Nature, Lond., 1946, 157: 453.
4. Concurrent use of radio-isotopes of calcium and phosphorus in the study of the metabolism of calcified tissues.
Armstrong, W. D., and Bornum, C. P.
J. Biol. Chem., 1948, 172: 199-204.
5. Effect of diet on the structure of the inorganic crystallites of bones.
Hirschman, A., Sobel, A. E., and Fankucken, I.
Anat. Rec., 1948, 100: 675.
6. Effect of protein intake on the bones of mature rats.
Estremera, H. R., and Armstrong, W. D.
J. Nutrit., 1948, 35: 611-8.
7. Gross demonstration of the vascular channels in bone.
Ruth, E. B.
Anat. Rec., 1947, 98: 59-65, incl. pl.
8. Influence of folliculin on bone metabolism, studied by means of radiophosphorus, ³²P.
Govaerts, J., and Dallemagne, M. J.
Nature, Lond., 1948, 161: 977.
9. Influence of nutritional factors on skeletal atrophy from disuse and on normal bones of mature rats.
Armstrong, W. D.
J. Nutrit., 1948, 35: 597-609.

10. Influence of sex hormones on bone; recent research on osseous tissue.
Gardner, W. U.
Yale Sc. Mag., 1945-46, 20: No. 3, 7, etc.
11. Photographs of small bones and skulls.
Driver, E. C.
Science, 1948, 107: 451.
12. Physiology of bone.
McLean, F. C.
Proc. Inst. M. Chicago, 1946-47, 16: 414.
13. Relationship of the parathyroid glands to the action of estrogen on bone.
Baker, B. L., and Leek, J. H.
Anat. Rec., 1946, 94: 448.
14. Some information on the citric acid content of bone substance.
Thunberg, T.
Acta physiol. scand., 1948, 15: 38-46.
15. Specific and non-specific nutritional effects as illustrated in bone.
Zucker, L. M., and Zucker, T. F.
Am. J. Physiol., 1946, 146: 593-9.
16. Symposium on bone metabolism.
McLean, F. C., Lipton, M. A., et al.
Tr. Conf. Metab. Aspects Convalesc., 1946, 13. meet., 9-157.
17. Turnover of bone measured with radiophosphorus.
Armstrong, W. D.
Fed. Proc., Balt., 1947, 6: 235.
18. Vascular channels of human bone.
Ruth, E. B.
Anat. Rec., 1947, 97: 366.
19. Vascular system of the long bones of the rat.
Reichel, S. M.
Surgery, 1947, 22: 146-57.

D. Disease and Injury

1. Advances in bone graft surgery attributed to World War II.
Carpenter, G. K.
Surg. Gyn. Obst., 1947, 84: 765-8.
2. Aid to bone surgery.
L., A. L.
Univ. Coll. Hosp. Mag., Lond., 1946, 31: 81.
3. Albers-Schönberg disease; a family survey.
Kelley, C. H., and Lawlah, J. W.
Radiology, 1946, 47: 507-13.
4. Albers-Schönberg disease affecting a soldier.
Lindahl, W. W., and Mokrohisky, S. M., and Ritota, M. C.
Texas J. M., 1946-47, 42: 37-9.
5. Appeal for a more radical attitude in the treatment of
bone cysts and giant cell tumors.
Mandl, F., and Dwek, J.
J. Internat. Coll. Surgeons, 1946, 9: 79-98.
6. Aseptic necrosis of bone management and prognosis.
Phemister, D. B.
Postgrad. M., 1948, 4: 20-5.
7. Bone infarcts.
Kahlstrom, S. C., and Phemister, D. B.
Am. J. Path., 1946, 22: 947-63, incl. 5 pl.
8. Bone repair with and without dietary and medical care.
Risser, J. C.
J. Am. Acad. Appl. Nutrit., 1947, 1: 46-53.
9. Bridging of bone defects.
Gibson, A., and Loadman, B.
J. Bone Surg., 1948, 30A: 381-96.
10. Brodie's abscess.
Waterson, A. P.
London Hosp. Gaz., 1946, 49: 125-9.
11. Brodie's abscess.
Waterson, A. P.
Brit. M. J., 1948, 1: 618.
12. Calcium, phosphorus and phosphatase as aids in the
diagnosis of bone lesions.
Flink, E. B.
Radiology, 1948, 50: 72-82.

13. Callus at site of gunshot wound.
Kernkamp, H. C. H.
Med. Radiogr., Rochester, 1947, 23: 49.
14. Cancellous bone grafts for infected bone defects; a single stage procedure.
Coleman, H. M., Bateman, J. E., et al.
Surg. Gyn. Obst., 1946, 83: 392-8.
15. Case of marble-bone disease.
Rugg-Gunn, M. A.
J. R. Nav. M. Serv., 1947, 33: 312-5.
16. Clinical basis for bone healing.
Hudack, S. S.
J. Periodont., 1948, 19: 7-10.
17. Corrective osteotomies held in position by properly bent vitallium plates.
Breck, L. W., Basom, W. C., and Sims, M. M.
Q. Bull. Northwest. Univ. M. School, 1948, 22: 128-31.
18. Cystic disease of bone.
Schlesinger, B.
Proc. R. Soc. M., Lond., 1946-47, 40: 538.
19. Depth gauge for bone surgery.
Gunther, W. A., and Keyes, E. J.
J. Bone Surg., 1948, 30A: 233.
20. Differential diagnosis of cystic lesions of bone.
Toumey, J. W.
Surg. Clin. N. America, 1947, 27: 737-54.
21. Diseases of bones.
Bruce, J.
In: Textb. Surg. Tr. (C. F. W. Illingworth) 3. ed.
Edinb., 1947, 176-90.
22. Do bony spurs cause pain.
Hopkins, F.
Virginia M. Month., 1947, 74: 179.
23. Experimental observations on the use of absorbable and non-absorbable plastics in bone surgery.
Blaine, G.
Brit. J. Surg., 1945-46, 33: 245-50.
24. Fixation of bones by plates and screws.
Peterson, L. T.
J. Bone Surg., 1947, 29: 335-47.

25. General considerations with regard to injuries of bones.
Romanis, W. H. C., and Mitchiner, P. H.
In their Sc. & Pract. Surg., 8. ed., Lond., 1948,
1: 415-49.
26. Hereditary osteopetrosis of the rabbit.
Pearce, L.
Fed. Proc., Balt., 1948, 7: 277.
27. Infantile cortical hyperostoses.
Caffey, J.
J. Pediat., S. Louis, 1946, 29: 541-59.
28. Infantile cortical hyperostosis.
Fisk, C.
J. Iowa M. Soc., 1947, 37: 529-32.
29. Infections of the bones and joints.
Lewin, P.
Arch. Surg., 1947, 54: 324-49.
30. Management of extensive complete defects in long bones.
Bateman, J. E.
Am. J. Surg., 1947, 73: 423-36.
31. Marble bone disease; a study of its relation to normal
bone development.
Zawisch, C.
Tr. Coll. Physicians Philadelphia, 1947-48, 15: 39.
32. Massive bone grafts for long bone defects in battle
casualties.
Scuderi, C.
Proc. Inst. M. Chicago, 1946-47, 16: 429.
33. Metaplasia of bone; report of a case.
Costello, H. J.
Arch. Derm. Syph., Chic., 1947, 56: 536.
34. Motor-driven screw holder and screw driver.
Dawson, G. R., jr.
J. Bone Surg., 1947, 29: 527-30.
35. Nerve lesions complicating certain closed bone injuries.
Seddon, H. J.
J. Am. M. Ass., 1947, 135: 691-4.
36. New bone deformity in the chick.
Daniel, L. J., Combs, G. F., et al.
Proc. Soc. Exp. Biol., N. Y., 1947, 65: 273-5.

37. Osteopetrosis; Albers-Schönberg disease (marble bones);
report of a case and morphologic study.
Pines, B., and Lederer, M.
Am. J. Path., 1947, 23: 755-81, incl. 3 pl.
38. Osteotomy of the long bones.
Milch, H.
Springf., 1947.
39. Osteotomy to correct right-angle deformity.
Hoets, J.
Austral. N. Zealand J. Surg., 1945-46, 15: 123.
40. Precautionary administration of pencillin in surgical
procedures on bones and joints.
Buchman, J., and Blair, J. E.
Arch. Surg., 1947, 55: 743-50.
41. Process of bone resorption.
Albright, F.
Tr. Conf. Metab. Aspects Convalesc., 1946, 14. meet. .
24-9.
42. Radiographic evidence of damage to bones and joints.
Brailsford, J. F.
J. Chart. Soc. Physiother., Lond., 1947-48, 33: 4-7.
43. Relationship of bone trauma to the development of acute
gastroduodenal lesions in experimental animals and
in man; with particular reference to the role of fat
emboli.
Fiesen, S. R., Merendino, K. A., et al.
Surgery, 1948, 24: 134-59.
44. Restoration of bone strength with reinforcement bone
grafts.
Carpenter, G. K., Rosenfeld, R. T., and Mech, K. F.
J. Bone Surg., 1946, 28: 692-8.
45. Roentgenologic aspect of certain lesions of bone;
neurotrophic or infectious.
Hodgson, J. R., Pugh, D. G., and Young, H. H.
Radiology, 1948, 50: 65-71.
46. Screw-holding screw-driver.
Thomas, F. B.
Lancet, Lond., 1946, 1: 310.

47. Serum phosphatase in osteopetrosis.
Ensign, D. C.
Proc. Centr. Soc. Clin. Res., 1947, 20: 79.
48. Set of bone chisels, osteotomes and gauges.
Meyerding, H. W.
Am. J. Surg., 1947, 74: 497.
49. Significance of minor bone injuries.
Gillespie, H. W.
Brit. J. Radiol., 1946, 19: 173-7.
50. Some points in the radiological diagnosis of diseases of the bones and joints.
Morton, S. A.
Wisconsin M. J., 1947, 46: 403-6.
51. Some thoughts on the relation of physiology of bone to the interpretation of roentgenograms.
Kraus, E. R.
J. Am. Osteopath. Ass. 1946-47, 46: 449-59.
52. Standard bone; a description of radiographic technique.
Stevens, G. D.
Ann. Rheumat. Dis., Lond., 1947-48, 6: 184.
53. Stimulation of healing in long bones by use of artificial material.
Schram, W. R., and Fosdick, L. S.
J. Oral Surg., 1948, 6: 209-17.
54. Sudeck's acute traumatic bone atrophy.
Siehl, D.
J. Am. Osteopath. Ass., 1947-48, 47: 313-5.
55. Sudeck's atrophy.
Sweetapple, H. A.
Med. J. Australia, 1946, 2: 581-4.
56. Surplus parts of the skeleton; a recommendation for the excision of certain portions as a means of shortening the period of disability following trauma.
Gurd, F. B.
Am. J. Surg., 1947, 74: 705-20.
57. Treatment of acute bone infections with penicillin and sulfonamides.
Nicholson, J. T.
Philadelphia M., 1946-47, 42: 45.

58. Treatment of difficult non-unions of the long bones.
Speed, J. S.
Bull. Chicago M. Soc., 1947-48, 50: 695-8.
59. Use of absorbable substances to obliterate bone cavities and as hemostatic agents in operative procedures on bones and joints.
Buchman, J., and Blair, J. E.
J. Bone Surg., 1947, 29: 650-8.
60. Use of dolophine (dimenthylamino heptanone-methadon) in the control of pain in bone and joint disorders.
Ishmael, W. K., and Stacy, J. R.
J. Oklahoma M. Ass., 1947, 40: 454-6.
61. Use of x-rays for the investigations of injuries to bones and joints.
Brailsford, J. F.
Punjab M. J., 1946, 11: 74-80.
62. Vitamin A; deficiency and excess in relation to skeletal growth.
Wolbach, S. B.
Proc. Inst. M. Chicago, 1946, 16: 118-45.

E. Transplantation

1. Antogonism to transplants as influenced by physiological need of the host for the engrafted tissue.
Eakin, R. M., Harris, M., and Stone, T. W.
Anat. Rec., 1946, 96: 541.
2. Autographic studies of the bony tissues with radioactive phosphorus and of the thyroid with radioactive iodine.
Percival, W., Findlay, D., et al.
Anat. Rec., 1947, 97: 424.
3. Bone bank.
Bush, L. F., and Barber, C. Z.
J. Am. M. Ass., 1948, 137: 588-94.
4. Bone grafting.
Flatow, E.
J. Chart. Soc. Physiother., Lond., 1945-46, 31: 46-8.
5. Bone grafting.
Misra, S. C.
J. Ind. M. Ass., 1946-47, 16: 122.

6. Bone grafting methods; two illustrative case reports.
Colonna, P. C.
Ann. Surg., 1947, 125: 96-101.
7. Bone graft in orthopedic surgery.
Compton, H. T.
J. M. Ass. Georgia, 1946, 35: 112-5.
8. Bone grafts.
Pasricha, H. R.
Ind. J. Surg., 1948, 10: 52-60.
9. Bone grafts; an end-result study of the healing time.
Bishop, W. A., jr., Stauffer, R. C., and Swenson, A. L.
J. Bone Surg., 1947, 29: 961-72.
10. Cancellous bone grafts for infected bone defects; a single stage procedure.
Coleman, H. M., Bateman, J. E., et al.
Surg. Gyn. Obst., 1946, 83: 392-8.
11. Case report of the use of a dual onlay graft and penicillin in an infected bone defect.
Lucas, L. S., and Gill, J. H.
West. J. Surg., 1946, 54: 18-20.
12. Embryonic bone transplants in drill hole defects of adult long bones.
Steinman, C.
Anat. Rec., 1947, 97: 406.
13. Evaluation of cortical and cancellous bone as grafting material; a clinical and experimental study.
Abbott, L. C., Schottstaedt, E. R., et al.
J. Bone Surg., 1947, 29: 381-414.
14. Experiences with a bone bank.
Wilson, P. D.
Ann. Surg., 1947, 126: 932-46.
15. Experiences with a bone bank.
Wilson, P. D.
Tr. Am. Surg. Ass., 1947, 65: 552-66.
16. Experiences with bone grafting procedures for the treatment of battle casualties and war injuries.
King, B. B.
Am. J. Surg., 1947, 74: 129-35.
17. Failures in cortical bone-grafting.
Denness, T.
Lancet, Lond., 1947, 2: 561.

18. Failures in cortical bone-grafting.
Ellis, V. H., Langston, H. H., and Ellis, J. S.
Lancet, Lond. 1947, 2: 128-30.
19. Gap bone grafts.
Parnall, E.
Rocky Mountain M. J., 1947, 44: 711-3.
20. Graft substitution of long bone shaft defects.
Terhune, S. R., and Gill, G. G.
South. Surgeon, 1946-47, 12: 118-29.
21. Healing of drill-hole defects in the long bones of adult rabbits, especially following the use of embryonic bone transplants.
Steinman, C.
Anat. Rec., 1947, 99: 427-45, incl. 2 pl.
22. Iliac-bone transplantation.
Dick, I. L.
J. Bone Surg., 1946, 28: 1-14.
23. Latch graft; a combination of inlay and intramedullary graft which is self-retaining.
Rizzo, P. C., and Lehmann, O.
J. Bone Surg., 1947, 29: 354-8.
24. Penicillin and bone grafting operations; evaluation of operations performed without penicillin and those performed with penicillin.
Branch, H. E., and Moldavsky, L. F.
Mil. Surgeon, 1946, 99: 25-31.
25. Repair of long bone defects with massive bone grafts.
Scuderi, C.
Illinois M. J., 1948, 93: 249-52.
26. Report on primary bone grafts.
Fett, H. C., and Smith, J. M.
U. S. Nav. M. Bull., 1947, 47: 579-85.
27. Specificity and mode of action of cytotoxins produced against alien transplants in rats.
Harris, M.
J. Exp. Zool., 1948, 107: 439-53, 2 pl.
28. Summary of results of bone-grafting for war injuries.
Farrow, R. C.
J. Bone Surg., 1948, 30A: 31-9.

29. Survival of cortical bone after bone-grafting.
Brown, D.
Brit. M. J. 1946, 1: 389-91.
30. Treatment of defects of the long bones by cancellous chip bone grafts.
Sargeant, T. R.
Bull. Vancouver M. Ass., 1945-46, 22: 52-5.
31. Treatment of defects of the long bones by cancellous chip bone grafts.
Sargeant, T. R.
Canad. M. Ass. J., 1946, 54: 119-24.
32. Treatment of long bone defects by bone grafts.
Scuderi, C.
J. Indiana M. Ass., 1948, 41: 400-2.
33. Use of cancellous chips in bone grafting.
Higgs, S. L.
J. Bone Surg., 1946, 28: 15-8.
34. Use of homogenous bone grafts; a preliminary report on the bone bank.
Bush, L. F.
J. Bone Surg., 1947, 29: 620-8.
35. Use of iliac bone in bone-grafting and arthrodesis.
Luckey, C. A., and Adams, C. O.
J. Bone Surg., 1946, 28: 521-34.
36. Use of penicillin therapy in conjunction with free bone grafting in infected areas.
Abbott, L. C., Bost, F. C., et al.
Surg. Gyn. Obst., 1946, 83: 101-6.

II. Cartilage

1. Achondroplasia and hydrocephalus.
Bradfield, S. G.
Med. J. Australia, 1947, 2: 124.
2. Aetiology and modern treatment of achlorhydria.
Ronald, J.
Med. Press., Lond., 1948, 219: 479-81.
3. Arrest of growth of the epiphysis.
Hodgen, J. T., and Franz, C. H.
Arch. Surg., 1946, 53: 664-74.
4. Boiled cartilage implants.
Firestone, C.
Am. J. Surg., 1946, 72: 153-60.
5. Cartilage and chondroitin sulphate; chondroitin sulphate and the physiological ossification of cartilage.
Sylvén, B.
J. Bone Surg., 1947, 29: 973-6.
6. Cartilage and chondroitin sulphate; chondroitin sulphate an inflammatory lesions of cartilage.
Sylvén, B.
J. Bone Surg., 1948, 30A: 158-62.
7. Chondrojet; a simplified method for handling of diced cartilage.
DeKleine, E. H.
Plastic & Reconstr. Surg., 1948, 3: 95-102.
8. Cytological study of the cartilage cells of developing long bones of the rat, with special reference to the Golgi apparatus, mitochondria, neutral-red bodies and lipid inclusions.
Sheehan, J. F.
J. Morph., 1948, 82: 151-99, incl. 5 pl.
9. Deformities following surgical epiphyseal arrest.
Regan, J. M., and Chatterton, C. C.
J. Bone Surg., 1946, 28: 265-72.
10. Dyschondroplasia with hemangiomata (Moffucci's syndrome); report of an early case with mild osseous manifestations.
Umansky, A. L.
Bull. Hosp. Joint Dis., N. Y., 1946, 7: 59-68.

11. Dysplasia epiphysiolis multiplex.
Fairbank, T.
Brit. J. Surg., 1946-47, 34: 225-32.
12. Establishing a preserved cartilage bank.
Brown, J. B., and DeMere, M.
Plastic & Reconstr. Surg., 1948, 3: 283-93.
13. Experimental observations on the growth of young human cartilage grafts.
Peer, L. A.
Plastic & Reconstr. Surg., 1946, 1: 108-12.
14. Growth of roentgen irradiation on epiphyseal growth; experimental studies upon the dog.
Reidy, J. A., Lingley, J. R., et al.
J. Bone Surg., 1947, 29: 853-73.
15. Histochemical studies on cartilage and bone.
Follis, R. H., jr., and Berthrong, M.
Am. J. Path., 1948, 24: 685.
16. Homogenous fetal cartilage grafts to bone; an experimental study.
Gordon, S. D., and Warren, R. F.
Ann. Surg., 1948, 127: 90-7.
17. Injuries of the cartilage in miners.
Adamson, W. A. D.
Edinburgh M. J., 1946, 53: 37-45.
18. Investigation, by experiments on animals, of the role played by the epiphyseal cartilage in longitudinal growth.
Hellstadius, A.
Acta chir. scand., 1947, 95: 156-66, pl.
19. Multiple knife for dicing cartilage.
Macmillan, W.
Plastic & Reconstr. Surg., 1948, 3: 226.
20. Note on the fibrillar structure of hyaline cartilage.
Ruth, E. B.
Anat. Rec., 1946, 96: 93-9, incl. pl.
21. Note on the formation of cartilage.
Sensenig, E. C.
Anat. Rec., 1948, 100: 615-9, incl. pl.
22. Note on the use of grated cadaver cartilage.
Penn, J., Jankowitz, J., and Bruwer, A.
Plastic & Reconstr. Surg., 1948, 3: 228.

23. Permanent dry preparations of cartilage and bone; a method especially applicable to fetal material.
Krahl, V. E., and Mueller, C. W.
Anat. Rec., 1947, 97: 41-5.
24. Relation of phosphorylase and phosphatase to calcification in cartilage.
Gutman, A. B.
Tr. Conf. Metab. Aspects Convalesc., 1946, 14. meet., 20-4.
25. Sequence of epiphyseal union in the opossum.
Washburn, S. L.
Anat. Rec., 1946, 95: 353-63.
26. Study on variations in the thickness of articular cartilage in association with rest and periodical load; an experimental investigation on rabbits.
Ingelmark, B. E., and Ekholm, R.
Upsala l  k. f  ren. f  rh., 1948, 53: 61-74.
27. Surgical epiphysiodesis.
Warner, W. P., jr.
Bull. Fulton Co. M. Soc., 1947, 21. No. 7, 41.

III. Collagen

1. Curtis' substitute for Van Gieson stain.
Leach, E. H.
Stain Techn., 1946, 21: 107-9.
2. Diseases of the collagen system.
Klemperer, P.
Bull. N. York Acad. M. 1947, 23: 581-8.
3. Effect of hydrothermal denaturation of collagen upon
its reactive groups.
Gustavson, K. H.
Acta chem. scand., 1947, 1: 581-91.
4. Electrophoresis of collagenase preparations.
Charlwood, P. A.
Biochem. J., Lond., 1948, 42: 150.
5. Hypersensitivity, the common denominator of the
collagenous diseases.
Evans, E. R.
California M., 1948, 68: 335-8.
6. Incipient shrinkage of collagen and gelatin.
Pankhurst, K.
Nature, Lond., 1947, 159: 538.
7. Low-angle X-ray diffraction pattern of collagen.
Wright, B. A.
Nature, Lond., 1948, 162: 23.
8. Note on the reaction of formaldehyde with collagen.
Gustavson, K. H.
J. Biol. Chem., 1947, 169: 531-7.
9. Shrinkage of collagen.
Lennox, F. G.
Biochem. J., Lond., 1947, 41: Suppl., xlvii.
10. Symposium on collagen.
Gross, J., Meyer, K., et al.
Ann. Rheumat. Dis., Lond., 1948-49, 7: 33-8.
11. Uptake of water by collagen in solutions of alkalis
and strong and weak organic bases.
Bowes, J. H., and Kenton, R. H.
Nature, Lond., 1947, 160: 827.

IV. Connective Tissue

1. Abnormal mesodermal pigmentation.
Carleton, A.
Proc. R. Soc. M., Lond., 1945-46, 39: 100.
2. Anatomical and clinical re-evaluation of Camper's, Scarpa' and Colles' fasciae.
Tobin, C. E., and Benjamin, J. A.
Anat. Rec., 1948, 100: 719.
3. Arterio-capillary fibrosis, an historic specimen.
Mann, W. N.
Guy's Hosp. Rev., Lond., 1946, 95: 73-8, 4 pl.
4. Cement substances of connective tissue.
Meyer, K.
Ann. Rheumat. Dis., Lond., 1948-49, 7: 33.
5. Clarification of some difficult features in the anatomy of the soft skeleton.
Congdon, E. D.
Q. Chicago M. School, 1945-46, 7: 7-9.
6. Connective tissue cementing substance.
Day, T. D.
Nature, Lond., 1947, 159: 100.
7. Diffuse collagen diseases; a morphological correlation.
Duff, G. L.
Canad. M. Ass. J., 1948, 58: 317-25.
8. Electron microscope study of the structure of connective tissue.
Gross, J.
Ann. Rheumat. Dis., Lond., 1948-49, 7: 33.
9. Fate of preserved heterogeneous grafts of fascia when transplanted into living human tissues.
Chandy, J.
Surg. Gyn. Obst., 1946, 83: 145-9.
10. Functions of the connective tissue.
Am. J. Clin. Path., 1947, 17: 545.
11. Further data on the pathogenesis of fibroblastic neoplasms; density ratio of tissue computed by the author's exposure meter method.
Marshall, W.
J. M. Ass. Alabama, 1945-46, 15: 206-8.

12. Membranous nature of interstitial connective tissue.
Day, T. D.
Lancet, Lond., 1947, 2: 945.
13. Nature and significance of the cementing substance in interstitial connective tissue.
Day, T. D.
J. Path. Bact., Lond., 1947, 59: 567-73, 2 pl.
14. Nucleic acid content of fibroblasts growing in vitro.
Davidson, J. N., Leslie, I., and Waymouth, C.
Biochem. J., Lond., 1948, 42: suppl. xv.
15. Nucleoprotein content of fibroblasts growing in vitro; the use of defatted media.
Davidson, J. N., and Waymouth, C.
Biochem. J., Lond., 1946, 40: 568-75.
16. Observations on the elastic tissue of the skin with a note on the reticular layer at the junction of the dermis and epidermis.
Dick, J. C.
J. Anat., Lond., 1947, 81: 201-11, 4 pl.
17. Physiological system of the connective tissue.
Hoover, M. A.
J. Am. Osteopath. Ass., 1947-48, 47: 152-5.
18. Physiology of supporting tissue.
Murray, P. D. F.
Annual Rev. Physiol., 1947, 9: 103-18.
19. Significance of diffusion and convection for the distribution of solutes in the interstitial space.
Kruhøffer, P.
Acta physiol. scand., 1946, 11: 37-47.
20. Use of purified fibrinogen with certain strains of normal and malignant fibroblasts in tissue cultures.
Evans, V. J., Dyer, H. M., and Kelly, M. G.
Cancer Res., 1947, 7: 728.
21. Use of x-rays in the treatment of indurations due to scars and chronic inflammation.
Rhys-Lewis, R. D. S.
Proc. R. Soc. M., Lond., 1945-46, 39: 150.

V. Extremities

1. Afferent conduction via the sympathetic ganglia innervating the extremities.
Threadgill, F. D.
Surgery, 1947, 21: 569-74.
2. Arterial supply to the extremities.
Learmonth, J. R.
Physiotherapy, Lond., 1948, 34: 25-7.
3. Bone growth in paralyzed limbs.
Armstrong, W. D.
Proc. Soc. Exp. Biol., N. Y., 1946, 61: 358-62.
4. Comparative strength of muscles with similar function; a study on peripheral nerve injuries of the upper extremity.
Physiother. Rev., 1946, 26: 59-65.
5. Development of the muscles and tendons in the lower leg and foot of chick embryos.
Wortham, R. A.
J. Morph., 1948, 83: 105-48, incl. 4 pl.
6. Discussion on pain in the upper limb, excluding shoulder lesions.
Harris, W., LeVay, D., et al.
Proc. R. Soc. M., Lond., 1946-47, 40: 492-8.
7. Distribution of nerve fibers within limb muscles in man.
Markee, J. E.
Anat. Rec., 1948, 100: 694.
8. Disturbance of longitudinal growth associated with prolonged disability of the lower extremity.
Ross, D.
Proc. Inst. M. Chicago, 1946-47, 16: 427.
9. Disturbance of longitudinal growth associated with prolonged disability of the lower extremity.
Ross, D.
J. Bone Surg., 1948, 30A: 103-15.
10. Early covering of extensive traumatic deformities of the hand and foot.
McDonald, J. J., and Webster, J. P.
Plastic & Reconstr. Surg., 1946, 1: 49-57.

11. Effect of autonomic blockage with tetraethylammonium on the blood flow in the extremities.
Malton, S. D., Hoobler, S. W., et al.
Univ. Hosp. Bull., Ann. Arb., 1948, 14: 5-8.
12. Effect of local compression upon blood flow in the extremities of man.
Halperin, M. H., Friedland, C. K., and Wilkins, R. W.
Fed. Proc., Balt., 1947, 6: 121.
13. Effect of local compression upon blood flow in the extremities of man.
Halperin, M. H., Friedland, C. K., and Wilkins, R. W.
Am. Heart J., 1948, 35: 221-37.
14. Effect of rotation on the circulation of the lower extremities.
Pearse, H. E., and Schloerb, P. R.
Ann. Surg., 1947, 126: 243-5.
15. Effects of percutaneous stimulation on the circulation in normal and in paralyzed lower extremities.
Wakim, K. G., Terrier, J. C., et al.
Am. J. Physiol., 1948, 153, 183-9.
16. Histological study of duck limb primordia transplanted to embryonic chick hosts.
Eastlick, H. L., and Mottet, N. K.
Anat. Rec., 1947, 97: 384.
17. Histophyiology of the limb-bud of the fowl during its early development.
Weel, P. B. v.
J. Anat., Lond., 1948, 82: 49-57, 2 pl.
18. How long should an extremity be immobilized after nerve suture?
Tarlov, I. M.
Ann. Surg., 1947, 126: 366-76.
19. Humerus, ulna and radius considered as mechanical structures.
Dempster, W. T., and Liddicoat, R. T.
Anat. Rec., 1948, 100: 654.
20. Length of upper extremities in Homo sapiens from birth through adolescence.
Meredith, H. V.
Growth, Ithaca, 1947, 11: 1-50, tab.
21. Limb regeneration in frogs stimulated by heat shock.
Rose, F. C., and Rose, S. M.
Anat. Rec., 1947, 99: 653.

22. Maintenance of vasodilatation of the extremities of normal persons over a prolonged period after successive meals.
Roth, G. M., and Sheard, C.
Fed. Proc., Balt., 1947, 6: pt 2, 193.
23. Method for measuring the length of lower limbs in orthopedics.
Sheng Hsien-Chih, and Chang Chi
Chin, M. J., 1947, 65: 231.
24. Modern trends in the treatment of intermittent claudication.
Newman, M.
Med. Press, Lond., 1948, 220: 33-7.
25. Multiple innervation of limb muscles in man.
Hollinshead, W. H., and Markee, J. E.
J. Bone Surg., 1946, 28: 721-31.
26. Neuro-vascular hila of muscles; upper limb.
Brash, J. C.
J. Anat., Lond., 1947, 81: 376.
27. Notes on the upper extremity of the gorilla; clinical application.
Kaplan, E. B.
Bull. Hosp. Joint Dis., N. Y., 1946, 7: 129-36.
28. Odd legs.
Ludlam, M.
British M. J., 1948, 2: 226.
29. Orthoroentgenography as a method of measuring the bones of the lower extremities.
Green, W. T., Wyatt, G. M., and Anderson, M.
J. Bone Surg., 1946, 28: 60-5.
30. Pain and dystrophy in the extremities.
Turner, R. H.
Am. J. Med., 1948, 4: 789.
31. Pain in the extremities.
Williams, R. D.
In: Signs and Sympt., (MacBryde, C. M.), Phila., 1947, 119-42.
32. Paravertebral block in the treatment of various disorders of the extremities.
Mandl, F.
In: Paravert. Block, N. Y., 1947, 196-292.

33. Radicular pain in the upper extremity.
Doyle, J. B.
California M., 1948, 68: 255-8.
34. Regulation and localization in the hind limb bud of the chick embryo.
Rudnick, D.
Anat. Rec., 1946, 94: 492.
35. Relative growth of the limb segments and tail in Ateles geoffroyi and Cebus capucinus.
Lumer, H., and Schultz, A. H.
Human Biol., 1947, 19: 53-67.
36. Separate contraction of functional areas in limb muscles during reflex withdrawal and crossed extension.
Markee, J. E., and Williams, M.
Fed. Proc., Balt., 1948, 7: 78.
37. Some considerations on the structure of quadruped extremities.
Rashevsky, N.
Bull. Math. Biophys., 1946, 8: 83-93.
38. Some effects of amputation of the chick wing bud on the early differentiation of the motor neuroblasts in the associated segments of the spinal cord.
Barron, D. H.
J. Comp. Neur., 1948, 88: 93-127, incl. 5 pl.
39. Some observations on growth of limbs with deficient nerve supply.
Duncan, D.
Anat. Rec., 1947, 97: 384.
40. Some observations on the developmental properties of the presumptive hind-limb area of the chick.
Rawles, M. E.
Anat. Rec., 1947, 99: 648.
41. Technique and interpretation of lower extremity venograms.
Miller, E. R.
California Med., 1946, 65: 1-3.
42. Technique for improving circulation to the lower extremities.
Brown, E. A.
Yearb. Acad. Appl. Osteopathy, 1946, 66.
43. Treatment of extremities following sudden failure of circulation.
Murray, G., Simpson, J. S., and Watters, N. A.
Surgery, 1946, 20: 315-23.

44. Vasodilatation produced by etamon, priscol, body warming and spinal anesthesia in normal extremities.
Green, H. D., and Ogle, B. C.
Fed. Proc., Balt., 1948, 7: 43.

VI. Joints

1. Absorption of protein and bacteria from normal and infected joints.
Edlund, T.
Nature, Lond., 1948, 161: 102.
2. Anatomy and physiology of diarthrodial joints.
Davis, D. V.
Ann. Rheumat. Dis., Lond., 1945-46, 5: 29-35.
3. Ankylosis, syovitis and arthritis.
Kaufman, I.
Dent. Items, 1947, 69: 305-8.
4. Arthograms.
Kelikian, H., and Lewis, K.
Proc. Inst. M. Chicago, 1946-47, 16: 465.
5. Arthralgia.
Pharm. Advance, 1946, No. 170, 22.
6. Arthralgia due to nervous causes.
Jonsson, E.
Acta med. scand., 1946, 123: 529-39.
7. Arthritis and related conditions.
Bach, T. F., ed.
Phila., 1947.
8. Arthrography.
Bonnin, J. G.
Med. World, Lond., 1948, 68: 391-6.
9. Arthrotomy approaches in the lower extremity.
Sutherland, R., and Rowe, M. J., jr.
Am. J. Surg., 1946, 71: 335-7.
10. Auscultation over the joints; a new diagnostic method.
Galambos, A.
Med. Rec., N. Y., 1946, 159: 166.
11. Charcot joint of the right ankle.
Lindsay, H. C. L.
Arch. Derm. Syph., Chic., 1946, 53: 538.
12. Conduction rates and dorsal root inflow of sensory fibers from the knee joint of the cat.
Gardner, E.
Am. J. Physiol., 1948, 152: 436-45.

13. Congenital pseudorthrosis; follow-up study after massive bone grafting.
Boyd, H. B., and Fox, K. W.
J. Bone Surg., 1948, 30A: 274-83.
14. Determination of circulation rate in articular structures.
Kaplan, E., and Joseph, N. R.
Fed. Proc., Balt., 1948, 7: 63.
15. Development of joints.
Haines, R. W.
J. Anat., Lond., 1947, 81: 33-55, 4 pl.
16. Diagnosis of joint injuries.
Wahi, R. N.
Clin. Soc. J., Agra., 1947, 11: No. 2, 82.
17. Effects of exercise on the knee-joints of inbred mice.
Lanier, R. R.
Anat. Rec., 1946, 94: 311-21, incl. pl.
18. General considerations with regard to injuries of joints.
Romanis, W. H. C., and Mitchiner, P. H.
In their: Sc. & Pract. Surg., 8. ed., Lond., 1948,
1: 450-9.
19. How to examine a joint.
Cyriax, J.
Cambridge Univ. M. Soc. Mag., 1947-48, 25: 49.
20. Hypermobility of bones due to overlengthened capsular and ligamentous tissues; a cause for recurrent intra-articular effusions.
Sutro, C. J.
Surgery, 1947, 21: 67-76.
21. Importance of the emotional life in relation to muscular and joint disturbances.
Harris, N.
J. Chart. Soc. Physiother., Lond., 1946-47, 32: 99-101.
22. Improved method of arthrography.
Blaustein, A.
Canad. M. Ass. J., 1946, 54: 491.
23. Injection of joints with acid potassium phosphate.
Mandel, L., and Nicolson, J. W.
Lancet, Lond., 1947, 2: 450.
24. Injection of joints with acid potassium phosphate.
Vergette, E. S.
Lancet, Lond., 1947, 2: 525.

25. Joint cracks.
Roston, J. B., and Haines, R. W.
J. Anat., Lond., 1946, 80: 241.
26. Joint measurements.
Hurt, S. P.
Am. J. Occup. Ther., 1947, 1: 209; passim.
27. Joint mobilizing operations on the hip, knee and shoulder
for complications following trauma.
Harmon, P. H.
Am. J. Surg., 1947, 74: 598-613.
28. Joint pain.
Freyberg, R. H.
In: Signs & Sympt. (MacBride, C. M.) Phila., 1947, 104-18.
29. Kinetics of synovial joints.
MacConaill, M. A.
J. Anat., Lond., 1947, 81: 394.
30. Lactic-acid injections of joints.
Tippett, G. O.
Lancet, Lond., 1947, 2: 224.
31. Manipulation of stiff joints.
Mennell, J.
Arch. Phys. M., 1947, 28: 685-9.
32. Mechanical joint mobilizer.
Forman, B., and Lewey, F. H.
Physiother. Rev., 1947, 27: 370-3.
33. Observations on the treatment of hypermotile joints by
injection.
Bahme, B. B.
J. Am. Osteopath. Ass., 1945-46, 45: 101-9.
34. Optical goniometer for observing range of motion of joints;
a preliminary report of a new instrument.
Wilmer, H. A., and Elkins, E. C.
Arch. Phys. M., 1947, 28: 695-704.
35. Painless treatment of ankylosed joints; a report of 19
years' study.
Echtman, J.
Med. Rec., N. Y., 1946, 159: 477-83.
36. Para-articular calcification in the lower extremities
of paraplegic patients.
Ward, W. C.
Am. J. Roentg., 1946, 56: 712-5.

37. Pathogenesis of Charcot's joint.
Delano, P. J.
Am. J. Roentg., 1946, 56: 189-200.
38. Postrheumatic arthralgia.
Roche, M. B.
J. Missouri M. Ass., 1947, 44: 896-900.
39. Pneumo-arthrography in the Navy.
Moss, J.
Radiography, Lond., 1946, 12: 20.
40. Progress in Clinical Medicine.
Daley, R.
Lond., 1948, 325-46.
41. Psychogenic arthralgia.
Wright, H. P.
Ann. Rheumat. Dis., Lond., 1947-48, 6: 204-7.
42. Studies in the mechanics of synovial joints; displacements on articular surfaces and the significance of saddle joints.
MacConaill, M. A.
Irish J. M. Sc., 1946, 223-35.
43. Studies in the mechanics of synovial joints; fundamental principles and diadochal movements.
MacConaill, M. A.
Irish J. M. Sc., 1946, 190-9.
44. Studies in the mechanics of synovial joints; hinge-joints and the nature of intra-articular displacements.
MacConaill, M. A.
Irish J. M. Sc., 1946, 620-6, pl.
45. Study in articular replacement.
Hudack, S. S.
Ann. Surg., 1946, 124: 277-87.
46. Synovial joints of the skate, Raia.
Davies, D. V.
J. Anat., Lond., 1948, 82: 9-20, 3 pl.
47. Technique for the preservation of animals for the study of joint movement and for routine dissection.
Ottoway, C. W.
J. Anat., Lond., 1946, 80: 207.
48. Textbook of surgical treatment.
Illingsworth, C. F. W.
Edinb., 3 ed., 1947, 191-202.

49. Trauma and arthritis; an analysis of 162 cases.
Wolff, E.
Indust. M., 1948, 17: 41-5.
50. Various conditions influencing roentgenographic
interpretation of joint diseases.
Pomeranz, M. M.
Am. J. Roentg., 1947, 58: 664-6.

VII. Synovia

1. Autonomic control of synovial-fluid reaction.
Reed, C. I., Joffe, H., and Joseph, N. R.
J. Bone Surg., 1947, 29: 370-6.
2. Blood supply of the synovial membrane and intra-articular structures.
Davies, D. V., and Edwards, D. A. W.
Ann. R. Coll. Surgeons England, 1948, 2: 142-56, 2 pl.
3. Case for diagnosis.
Cornbleet, T., and Cohen, D.
Arch. Derm. Syph., Chic., 1946, 54: 749.
4. Cell content of synovial fluid.
Davies, D. V.
J. Anat., Lond., 1946, 80: 221.
5. Effects of X-ray irradiation on viscosity of synovial fluid.
Ragan, C., Dorlan, C. P., et al.
Proc. Soc. Exp. Biol., N. Y., 1947, 66: 170-2.
6. Electrochemical determination of ionic diffusion through the synovial membrane.
Joseph, N. R., Reed, C. I., Steck, I. E.
Fed. Proc., Balt., 1948, 7: 62.
7. In vivo study of the pH of synovial fluid in dogs.
Joseph, N. R., Reed, C. I., and Homburger, E.
Am. J. Physiol., 1946, 146, 1: 1-11.
8. Lymphatics of the synovial membrane.
Davies, D. V.
J. Anat., Lond., 1946, 80: 21-3, 2 pl.
9. Observations on the chemistry of synovial fluid in human subjects.
Joseph, N. R., Horwitz, H., and Reed, C. I.
Fed. Proc., Balt., 1947, 6: 138.
10. pH of the synovial fluid in the anaesthetized dog under treatment with metrazol or insulin.
Steck, I. E., Joseph, N. R., and Reed, C. I.
J. Bone Surg., 1948, 30A: 500-5.
11. Response of the pH of synovial fluid in the anaesthetized dog to circulatory influence.
Folk, F., Reed, C. I., and Joseph, N. R.
Fed. Proc., Balt., 1947, 6: 104.

12. Synovial membrane and synovial fluid of joints.
Davies, D. V.
Lancet, Lond., 1946, 2: 815-9.
13. Synovioma.
McCartney, J. S.
Staff Meet. Bull. Hosp. Univ. Minnesota, 1945-46,
17: 30-6.
14. Three cases of synovioma.
Harris, V. C. J.
Brit. M. J., 1948, 1: 447, pl.
15. Two synovial fibro-sarcomas (Jönsson).
Knutsson, F.
Acta radiol, Stockh., 1948, 29: 4-6.
16. Villonodular plasma cell synovitis.
Bléyer, L. F., and Carroll, K.
Am. J. Surg., 1947, 74: 222-5.
17. Viscosity of normal human synovial fluid.
Ragan, C.
Proc. Soc. Exp. Biol., N. Y., 1946, 63: 572-5.

VIII. Tissue Culture

1. Animal tissue cells in protein-free media.
Jensen, A. B.
Nature, Lond., 1948, 161: 273.
2. Animal tissue culture with a synthetic medium.
Jacoby, F., and Darke, S. J.
Nature, Lond., 1948, 161: 768.
3. Apparatus for examining living tissue.
Greenwald, W. F.
U. S. Patent Off., 1948, No. 2, 437, 916.
4. Apparatus for the prolonged sterile culture in vitro of whole plants on excised plant tissues.
DeRopp, R. S.
Science, 1946, 104: 371-3.
5. Carbohydrate metabolism in tissue homogenates.
Reiner, J. M.
Arch. Biochem., N. Y., 1947, 12: 327-38.
6. Control of pH in roller tube cultures.
Paff, G. H., and Samuelson, G. S.
Anat. Rec., 1946, 94: 486.
7. Cultivation of animal tissue in vitro in nutrients of precisely known constitutions.
White, P. R.
Growth, Ithaca, 1946, 10: 231-89.
8. Culture of tissue cells in clots formed from purified bovine fibrinogen and thrombin.
Porter, K. R., and Hawn, C. V. Z.
Proc. Soc. Exp. Biol., N. Y., 1947, 65: 309-14.
9. Effect of micro-injury in tissue culture.
Chambers, R., Lin, C. K., and Cameron, G.
Anat. Rec., 1948, 100: 649.
10. Evidence for retention of physiological differentiation in outgrowing epithelial sheets in tissue culture.
Cameron, G.
Anat. Rec., 1948, 100: 646.
11. Fibrinogen-thrombin clot useful in tissue culture.
Favata, B. V.
Arch. Path., Chic., 1947, 44: 321.

12. Growth of animal tissue cells in artificial media.
Fischer, A., Astrup, T., et al.
Proc. Soc. Exp. Biol., N. Y., 1948, '67: 40-6.
13. Immunochemistry of mouse tissue components.
Maculla, E. S.
Yale J. Biol. & M., 1947-48, 20: 299; passim.
14. Immunochemistry of mouse tissue components; a comparison of the antigenic composition of embryonic mouse organs with that of adult mouse organs and with mouse tumors.
Maculla, E. S.
Yale J. Biol. & M., 1947-48, 20: 465-72.
15. Inorganic micronutrients in tomato root tissue culture.
Glasstone, V. F. C.
Am. J. Bot., 1947, 34: 218-24.
16. Intercellular substance in relation to tissue growth.
Clark, E. R.
Ann. N. York Acad. Sc., 1945-46, 46: 733-42.
17. Intercellular substances.
Harris, W. R.
Univ. Toronto M. J., 1947-48, 25: 145-56.
18. Investigation into secondary thiochrome fluorescence in tissue sections.
Henkes, H. E.
Acta anat., Basal, 1946-47, 2: 321-50.
19. Longevity of chick tissue cultures without renewal of medium.
Hanks, J. H.
J. Cellul. Physio., 1948, 31: 235-60.
20. Metabolism of beta, delta - diketohexanoic acid in minced tissues.
Breusch, F. L., and Ulusoy, E.
Arch. Biochem., N. Y., 1947, 14: 183-91.
21. Methods for continuous tissue culture as applied to bone marrow.
Plum, C. M.
Acta physiol. scand., 1946, 11: 260-9.
22. Plant tissue culture.
Gautherot, R. J.
Endeavour, Lond., 1948, 7: 75-9, incl. 2 pl.

23. Procedure for the fixation, staining and mounting of whole mounts from tissue cultures grown in Carrel D 3.5 flasks.
Earle, W. R.
J. Nat. Cancer Inst., 1947-48, 8: 83-9.
24. Recent advances in the study of tissue metabolism.
Schlenk, F.
Texas Rep. Biol. M., 1947, 5: 381.
25. Similar effects of different lesions.
Burns, L.
J. Am. Osteopath. Ass., 1945-46, 45: 545-7.
26. Source of nitrogen and the growth of sunflower tissue on synthetic media in vitro.
Riker, A. J., and Gutsche, A.
Anat. Rec., 1948, 100: 707.
27. Staining technique for diagnostic tissue spreads.
Dick, H. J.
Arch. Path., Chic., 1947, 44: 396.
28. Study of the vitality of tissue transplants by means of radioactive phosphorus; preliminary report.
Kiehn, C. L., Friedell, H. L., MacIntyre, W. J.
Plastic & Reconstr. Surg., 1948, 3: 335-9.
29. Tissue carrier.
Cox, M. E.
Bull. U. S. Army M. Dep., 1946, 5: 731.
30. Use of perforated cellophane for the growth of cells in tissue culture.
Evans, V. J., Earle, W. R., et al.
J. Nat. Cancer Inst., 1947-48, 8: 103-19.
